A Reference Guide to English, American and Canadian Literature Inglis Freeman Bell, Jennifer Forbes, 1971 To anyone who has crossed the Canadian prairies the title of this book Vertical Man Horizontal World will strike a responsive chord man stands alone in seemingly limitless landscape as empty as nightmare The stark isolation of man against the prairie s landscape is so obvious the author says that except for passing comments in two studies of Canadian prairie fiction no one has made a sustained analysis of the use of the prairie in Canadian fiction or argued at any length for what most immediately unifies the literature of the prairie region Author Ricou argues that man is intimidated by the vastness which surrounds him and he will almost certainly wish to meet the challenge of this land to say Look look in whatever way he can by raising a crop or a monument by interpreting his experience in paint or words Ricou traces this recurrent theme in prairie fiction from writers such as Frederick Philip Grove and Wallace Stegner Edward McCourt and W O Mitchell to Margaret Laurence and Robert Kroetsch In tracing the relationship of man and land from the earliest writers of prairie fiction to the most recent Ricou shows how the calm and benign relationship of man and land as exemplified for instance in the fiction of Robert Stead and W O Mitchell has changed in recent novels to a more dramatic confrontation The novelists find in the landscape an ideal mirror for the dilemma and often the strength of existential man Critic Henry Keisel once wrote To conquer a piece of the continent to put one s imprint upon virgin land to say Here I am for that I came is as much a way of proving one s existence as is Descartes cogito

ergo sum Vertical Man Horizontal World is an affirmation of Kreisel's statement Slowly and cumulatively Ricou traces the image of man leaving his mark on the empty sometimes nightmarish land of the Canadian prairie How do we fit our time and our place is a question posed by all the writers Ricou examines The answer he says at this point in the evolution of Canadian prairie fiction delivered with conviction is abruptly and uneasily but brazenly and delightedly This book is a sustained and penetrating look at the interrelationship of man and landscape in Canadian prairie fiction Dictionary of World Biography Frank Northern Magill, Alison Aves, 2003-01-23 Containing 250 entries each volume of the Dictionary of World Biography contains examines the lives of the individuals who shaped their times and left their mark on world history Much more than a Who's Who each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements and conclude with a fully annotated bibliography The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history Any student in the field will want to have one of these as a handy reference companion *Troy and Her Legend* Arthur Milton Young, 1948-03-15 The power of legend is that it is never simply an old tale retold Though the legend may be old its meaning and influence is new in each retelling and for each new group of listeners Young provides here a biography of the greatest of the classical legends the story of the fall of Troy As he states in his book the greatness of the legend does not depend on its relation to historical reality but lies rather in the beauty and variety it has called out of the creative imaginations of artists from Homer down to modern times artists who with varied skill and in many forms have expressed their individual genius Young's text is beautifully illustrated with examples of art inspired by the legend from literature painting ceramics tapestry sculpture and the opera with fresh interpretations of their meaning The legend of Troy has survived more than 3 000 years in the art of many from Quintus of Smyrna to Tennyson to Christopher Morley Guerin to Baroccio to Strauss and archaeological excavations in our own time have only enriched the imaginations of contemporary artists and scholars In deepening our knowledge of classic texts and their changing interpretations over time Young argues we enhance our understanding both of the classics and of the successive civilizations they have influenced *Ancient Near Eastern History and Culture* William H. Stiebing Jr., 2016-07-01 This introduction to the Ancient Near East includes coverage of Egypt and a balance of political social and cultural coverage Organized by the periods kingdoms and empires generally used in Near Eastern political history the text interlaces social and cultural history with the political narrative This combination allows students to get a rounded introduction to the subject of Ancient Near Eastern history An emphasis on problems and areas of uncertainty helps students understand how evidence is used to create interpretations and allows them to realize that several different interpretations of the same evidence are possible This introduction to the Ancient Near East includes coverage of Egypt and a balance of political social and cultural coverage *The New York Times Book Review*, 1970-04 **The Classical Epic** Thomas J.

Sienkewicz,1991 A selective bibliography on Homer's Iliad and Odyssey and Virgil's Aeneid directed toward the first time reader of these works in translation especially high school and general college students looking for sources for course papers and projects
