Baer,2017-03-10 Elaborate cinematic universes and sophisticated marketing tie ins are commonplace in entertainment today It s easy to forget that the transmedia trend began in 1982 with a barbarian action figure He Man and the other

characters in Mattel's popular Masters of the Universe toy line quickly found their way into comic books, video games, multiple television series, and a Hollywood film. The original animated series (1983-1985) was the first based on an action figure, and the cult classic Masters of the Universe (1987) was the first toy-inspired live-action feature film. But it wasn't easy. He-Man faced adversaries more dangerous than Skeletor: entertainment lawyers, Hollywood executives, even the Reagan administration. The heroes and villains of Eternia did more than shape the childhoods of the toy-buying public; they formed the modern entertainment landscape.

The Christian Advocate, 1901 **A New Model of the Authentic Church** Robert Fuggi, 2018-02-08

In American church culture, worldly benchmarks of achievement have all but blinded us to the true purpose of the body of Christ. A New Model of the Authentic Church may be one of the most significant books written on the American church in decades. It not only offers a scholarly analysis of the current state of the church but provides practical solutions. The book offers a brilliantly well-developed model for how to make church work more effectively. If implemented, it would provide a much-needed paradigm shift in how we do church in America. The book's main contribution is that it provides a workable framework not only on how to birth new missionally minded churches but how to reform existing ones back to the Authentic Church of the gospels. If its principles are taken and applied, the book could alter the landscape of the American church, which will be a breath of fresh theological air to a church that has lost its way in the new millennium. The purpose of this book is not to just challenge and change the status quo; its goal is to bring a real, lasting transformation to how we do church. The aspiration in writing this book is for it to be seen and read not just as a critical assessment of the condition of the American church but as a practical blueprint that will provide much renewed hope and purpose to the contemporary American church, the bride of Christ.

Providence and the Invention of American History Sarah Koenig, 2021-01-01

How providential history—the conviction that God is an active agent in human history—has shaped the American historical imagination. In 1847, Protestant missionary Marcus Whitman was killed after a disastrous eleven-year effort to evangelize the indigenous peoples of the Pacific Northwest. By 1897, Whitman was a national hero celebrated in textbooks, monuments, and historical scholarship as the Savior of Oregon. But his fame was based on a tall tale, one that was about to be exposed. Sarah Koenig traces the rise and fall of Protestant missionary Marcus Whitman's legend, revealing two patterns in the development of American history. On the one hand is providential history, marked by the conviction that God is an active agent in human history and that historical work can reveal patterns of divine will. On the other hand is objective history, which arose from the efforts of Catholics and other racial and religious outsiders to resist providentialists' pejorative descriptions of non-Protestants and nonwhites. Koenig examines how these competing visions continue to shape understandings of the American past and the nature of historical truth.

Christian Advocate and Journal and Zion's Herald, 1901 **Whose America?** Jonathan Zimmerman, 2022-08-26

In this expanded edition of his 2002 book, Zimmerman surveys how battles over public education have become conflicts at the heart of American national identity. Critical Race Theory, The 1619 Project, Mask mandates. As the headlines remind us,

American public education is still wracked by culture wars But these conflicts have shifted sharply over the past two decades from religious issues to national ones marking larger changes in the ways that Americans imagine themselves From the Scopes Trial over evolution in the 1920s through battles over school prayer in the 80s and 90s the twentieth century s bitterest school battles were tied to questions of faith By contrast America forged truces over history instruction by adding new groups to a shared patriotic story of freedom and progress Jonathan Zimmerman forecast as much in his 2002 book *Whose America* Twenty years later though Zimmerman has reconsidered arguments over what American history is what it means and how it is taught have exploded with special force in recent years whether over Confederate monuments the naming of buildings and institutions or the very definition of patriotism In this substantially expanded new edition Zimmerman meditates on the history of the culture wars in the classroom and on what our inability to find common ground might mean for our future

North Alabama Beer Sarah Bélanger, Kamara Bowling Davis, 2017-08-28 North Alabama built its fi rst commercial brewery in Huntsville in 1819 three months before the state joined the Union Before Prohibition in 1915 the region was peppered with numerous saloons taverns and dance halls Locals still found ways to get their booze during Prohibition using Tennessee River steamboats and secret tunnels for smuggling Alabama re legalized beer in 1937 but it wasn t until 2004 when the grass roots organization Free the Hops took on the state s harsh beer laws that the craft beer scene really began to flourish Authors Sarah B langer and Kamara Bowling Davis trace the history of beer in North Alabama from the early saloon days to the craft beer explosion James Farmer Jr. Ben Voth, 2017-04-13 James Farmer Jr The Great Debater provides a rhetorical and biographical guide to how the American Civil Rights Movement came into being It details James Farmer Jr s

Building a Learning Culture in America Kevin P. Chavous, 2016-09-30

Building a Learning Culture in America takes an incisive no holds barred look at how America embraced and cultivated a culture of learning in the past how that culture declined in the sixties and seventies and what must be done to regain it From political gridlock to systemic discrimination Chavous details the many ways education today is off track and cites specific examples of what Americans might do to reform it Part memoir and part manifesto this is a frank fascinating and personal account of Chavous experience as a politician working to enact school choice in Washington DC and throughout the United States During the course of his political career he has seen political skirmishes and party scuffles interfere with the United States ability to improve its educational system These conflicts did not cause the problem they were merely a result The true problem was more basic the decline of America s learning culture This pivotal work calls for Americans to unite in making the changes needed to reestablish a learning culture as an inherent piece of the American national fabric and tells us how to begin
