The New Spymasters Stephen Grey, 2015-07-14 The old world of spying dead letter boxes microfilm cameras an enemy reporting to the Moscow Center and a hint of sexual blackmail is history The spymaster s technique has changed and the enemy has too He or she now frequently comes from a culture far removed from Western understanding and is part of a less well organized group The new enemy is constantly evolving and prepared to kill the innocent In the face of this new threat the spymasters of the world shunned human intelligence as the primary way to glean clandestine information and replaced it with an obsession that focuses on the technical methods of spying ranging from the use of high definition satellite photography to the global interception of communications However this obsession with technology has failed most spectacularly with the devastation of the 9 11 attacks In this searing modern history of espionage Stephen Grey takes us from the CIA s Cold War legends to the agents who betrayed the IRA through to the spooks inside Al Qaeda and ISIS Techniques and technologies have evolved but the old motivations for betrayal patriotism greed revenge compromise endure Based on years of research and interviews with hundreds of secret sources Stephen Grey s The New Spymasters is an up to date expos that shows how spycraft s human factor is once again being used to combat the world s deadliest enemies

The Big Switch Saul Griffith,2022-02-07 An inspiring practical plan to transform Australia s energy system and supercharge our response to the climate crisis About f cking time we have an actual plan written down that can be executed and financed In a decarbonised world Australia is a winner The opportunity now is ours for the taking Mike Cannon Brookes Climate change is a planetary emergency We have to do something now but what Australian visionary Saul Griffith has a plan In The Big Switch Griffith lays out a detailed blueprint optimistic but feasible for fighting climate change while creating millions of new jobs and a healthier environment Griffith explains exactly what it would take to transform our infrastructure update our grid and adapt our households The same natural advantages incredible resources on an enormous continent that helped Australia prosper in the 20th century are the ingredients for becoming the most prosperous entirely renewable economy in the world The point is we don t have to be

perfect to solve climate change We just need to be electric If we go hard and go early on cutting emissions and if by so doing we encourage other countries to increase their ambition and follow us we have everything to win We ll be winning so much we ll win win win win win Lower energy prices for all Australians Driving our vehicles will be cheaper than it has ever been Heating our homes and our showers will be cheaper too The average household will probably save 5000 a year or more on energy and car expenses Saul Griffith

Vehicle Excise Duty as Environmental Tax Great Britain. Parliament. House of Commons. Environmental Audit Committee, 2008-08-04 This year s budget made some significant changes to annual road tax vehicle excise duty or VED The main changes included introduction of six new VED bands from 2009 10 bringing the total number of bands to 13 applying this new regime of 13 bands to existing cars on the road first registered on or after 1 March 2001 and introduction of a new rate of VED for new cars in the first year in which they are bought The Environmental Audit Committee s aims in this report were to examine the projected environmental impacts of these changes to review how fair these changes are and to make recommendations to the Treasury as to how it should proceed The Committee felt that there was nothing intrinsically wrong in the rebanding of cars registered since 2001 but that there was a lack of data about the financial impacts of these change on lower income groups The new first year rates were welcomed However concerns remain that the differentials between VED bands are still not large enough to drive market transformation The Treasury should have taken much greater care to explain the changes in VED in the Budget If the point of green taxes is to change behaviour they need to be properly publicised In general the Treasury needs to develop a proper communications strategy
