Aliteration Poem

Remember:

- This type of poem makes use of aliteration to describe a creature.
- It is humorous, whimsical form of poetry.
- The main words in each line will begin with the letter you choose to aliterate.
- Each line of the poem (except line 1) should have at least 4 words aliterating with the letter you chose.
- Do not repeat aliterating words you have already used.
- Use a dictionary to help!

Example:

I have a Samurarian

He counters downy in sunny Sacramento

And engle-ian down sushi, spaghetti, burger soup, and sugary sundae.

He likes singing silly songs, scaring scary snakes, and Scooby-Do.

A Samurarian once went a outside will be did slippery slopes in Switzerland.

My Samurarian showed me onto my shoe, shimmering shoes last Sunday.

(name your creature and add -ian to the end of the word)

(tell where your creature lives)

(tell what your creature eats)

(tell what your creature likes)

(tell something about your creature)

(tell something your creature did to you)

Constituent and Pattern in Poetry Archibald A. Hill, 2014-07-03 Constituent and Pattern in Poetry is a collection of essays on literature and language It is built on the assumption that works of literature have existence in the real world and that they may be analyzed in a fashion that is not totally subjective Using models derived from structural linguistics Archibald A Hill presents a number of theoretical contributions to the study of poetry as well as new ways of looking at specific poems The book as a whole provides an overview of the tools and ideas Hill has developed for analyzing works of literature and it is the first time the essays have been gathered together in one volume The book is divided into three sections Definition of Literature and Study of Its Patterns Types of Meaning and Imagery and Principles for Interpreting Meaning Each section opens with a theoretical essay followed by three essays that work analytically with specific poets and poems using the methods defined in the first In his examination of such poets as Hopkins Browning Milton Blake Keats and Dickinson Hill uses such proposals as the law of least lexical contribution and maximal contextual contribution the hypothesis that when possible meanings occur together in a cluster they support each other and the idea that it is sometimes possible to recover underlying language sequences from which the author has departed for identifiable reasons By applying these suppositions to the study of particular poems Hill shows how the reader may arrive at statements about the relative artistic merit of works of literature **The Meters of Old Norse Eddic Poetry** Seiichi Suzuki, 2013-12-12 This book is a formal and functional study of the three distinct meters of Old Norse eddic poetry fornryr islag m lah ttr and lj ah ttr It provides a systematic

account of these archaic meters both synchronic and diachronic and from a comparative Germanic perspective particularly concerned with Norse innovations in metrical practice Suzuki explores how and why the three meters were shaped in West Scandinavia through divergent reorganization of the Common Germanic metrical system The book constitutes the first comprehensive work on the meters of Old Norse eddic poetry in a single coherent framework with thorough data presentation detailed philological analysis and sophisticated linguistic explanation the book will be of enormous interest to Old Germanic philologists linguists medievalists as well as metrists of all persuasions A strong methodological advantage of this work is the extensive use of inferential statistical techniques for giving empirical support to specific analyses and claims being adduced Another strength is a cognitive dimension a re construction of a prototype based model of the metrical system and its overall characterization as an integral part of the poetic knowledge that governed eddic poets verse making technique in general
