Image Science W. J. T. Mitchell, 2015-10-27 Almost thirty years ago W J T Mitchell's *Iconology* helped launch the interdisciplinary study of visual media now a central feature of the humanities Along with his subsequent *Picture Theory* and *What Do Pictures Want* Mitchell's now classic work introduced such ideas as the pictorial turn the image picture distinction the metapicture and the biopicture These key concepts imply an approach to images as true objects of investigation an image science Continuing with this influential line of thought *Image Science* gathers Mitchell's most recent essays on media aesthetics visual culture and artistic symbolism The chapters delve into such topics as the physics and biology of images digital photography and realism architecture and new media and the occupation of space in contemporary popular uprisings The book looks both backward at the emergence of iconology as a field and forward toward what might be possible if image science can indeed approach pictures the same way that empirical sciences approach natural phenomena Essential for those involved with any aspect of visual media *Image Science* is a brilliant call for a method of studying images that overcomes the two culture split between the natural and human sciences *The Ten Commandments of Propaganda* Brian Anse

PowerPoint for Windows 95 for Dummies Doug Lowe,1995 Want to give a dynamic presentation but don t have the foggiest idea what to say or how to say it PowerPoint X for Dummies will help the user prepare better content and deliver it with pizzazz using this great presentation package It is filled with great tips and techniques for creating powerful professional looking presentations **Bengali Cinema** Sharmistha Gooptu,2010-11 Covering the years spanning cinema s emergence as a popular form in Bengal in the first half of the twentieth century this book examines the main genres and

trends produced by this cinema and leads up to Bengali cinema's last phase of transition in the 1980s. Arguing that Bengali cinema has been a key economic and social institution, the author highlights that the Bengali filmic imaginary existed over and above the imaginary of the Indian nation. This book argues that a definitive history of Bengali cinema presents an alternative understanding to the currently influential notion of the Hindi film as the Indian or national cinema. It suggests that the Bengali cinema presents a history which brings to the fore the deeply contested terrain of national cinema and shows the creation of the alternative imaginary of the Bengali film. The author indicates that the case of the Bengali cinema demonstrates the emergence of a public domain that set up a definitive discourse of difference with respect to the all India Hindi film popularly classified as Bollywood cinema and which pre-empted its subsumption within the more pervasive culture of the Bombay Hindi cinema. As the first comprehensive historical work on Bengali cinema, this book makes a significant contribution to both Film and Cultural Studies and South Asian Studies in general.

Discourse Analysis and Austerity Kate Power, Tanweer Ali, Eva Lebedušková, 2019-03-04

In the immediate aftermath of the global financial crisis of 2008, governments around the developed world coordinated policy moves to stimulate economic activity and avert a depression. In subsequent years, however, cuts to public expenditure or austerity have become the dominant narrative in public debate on economic policy. This unique collaboration between economists and linguists examines manifestations of the discourses of austerity as these have played out in media policy and academic settings across Europe and the Americas. Adopting a critical perspective, it seeks to elucidate the discursive and argumentation strategies used to consolidate austerity as the dominant economic policy narrative of the twenty-first century.
