Clear Williams depicts the home as a place which restricts and suffocates those who fail to perform their expected gender role in the wider patriarchal framework of American life In its extended full length treatment of homes families and familial exiles in his theatrical output this book adds a new perspective to Williams scholarship by examining the desperate and at times futile search for love relationality and belonging that his marginalized and alienated characters frequently pursue in alternative avenues of existence

The Architecture of Drama David Letwin, Joe and Robin Stockdale, 2008-07-25 Many of the world's greatest dramas have sprung not only from the creative impulses of the authors but also from the time honored principles of structure and design that have forged those impulses into coherent and powerful insights An understanding of these principles is essential to the craft of creating and interpreting works of drama for the stage or screen The Architecture of Drama provides an introduction to these principles with particular emphasis placed on how a drama's structural elements fit together to create meaningful and entertaining experiences for audiences The book is arranged into five sections each dealing with a separate component Plot the selection

and arrangement of events in the story Character the choices and actions taken by the people in the plot Theme the artist's point of view on the topic addressed Style the characteristic mode through which the drama expresses itself Genre the type of story being presented Through a range of examples from Oedipus Rex to The Wizard of Oz the authors examine these structural building blocks both separately and in their interdependent relationship to one another Along the way they also illustrate how these principles reflect the innate human need for comprehension and order The Architecture of Drama provides an accessible straightforward insight for anyone who seeks a deeper understanding of plays and films *Theatre Symposium, Vol. 25* Karen Berman, 2017-10-10 Addresses the ways that theatre both shapes cross cultural dialogue and is itself in turn shaped by those forces Globalization may strike many as a phenomenon of our own historical moment but it is truly as old as civilization we need only look to the ancient Silk Road linking the Far East to the Mediterranean in order to find some of the earliest recorded impacts of people and goods crossing borders Yet in the current cultural moment tensions are high due to increased migration economic unpredictability complicated acts of local and global terror and heightened political divisions all over the world Thus globalization seems new and a threat to our ways of life to our nations and to our cultures In what ways have theatre practitioners educators and scholars worked to support cross cultural dialogue historically And in what ways might theatre embrace the complexities and contradictions inherent in any meaningful exchange The essays in Theatre Symposium Volume 25 reflect on these questions Featured in Theatre Symposium Volume 25 Theatre as Cultural Exchange Stages and Studios of Learning by Anita Gonzalez Certain Kinds of Dances Used among Them An Initial Inquiry into Colonial Spanish Encounters with the Areytos of the Ta no in Puerto Rico by E Bert Wallace Gertrude Hoffmann's Lawful Piracy A Vision of Salome and the Russian Season as Transatlantic Production Impersonations by Sunny Stalter Pace Greasing the Global Princess Lotus Blossom and the Fabrication of the Orient to Pitch Products in the American Medicine Show by Chase Bringardner Dismembering Tennessee Williams The Global Context of Lee Breuer's A Streetcar Named Desire by Daniel Ciba Transformative Cross Cultural Dialogue in Prague Americans Creating Czech History Plays by Karen Berman Finding Common Ground Lessac Training across Cultures by Erica Tobolski and Deborah A Kinghorn

highest share of public attention stirring academic educational and media controversies on both sides of the Atlantic Postmodernism feminism postcolonialism and multiculturalism have refashioned the attitudes of educators and audiences towards cultural memory opening up curricula to subjects and traditions previously excluded from the humanities Predictably these new critical practices have triggered heated responses from commentators fearing that culture and education might thereby be deprived of their capacity to provide audiences and learners with proper groundings and landmarks The present volume gathers contributions that throw light on multiple aspects of this reconfiguration of cultural memory It brings together essays focusing on the dynamics of canon formation in several fields literature drama film and music Contributors examine how writers and communities find their bearings in a cultural landscape more complex than that previously envisaged by advocates of the Great Tradition Specifically the present essays throw light on the status of modernist writing drama in English or popular genres within the new canonical topography elaborated at the turn of the twenty first century
