On Unemployment Mark R. Reiff, 2015-10-07 With unemployment at historically high rates that show signs of becoming structural there is a pressing need for an in depth exploration of this economic injustice Unemployment is one of the problems most likely to put critical pressure on our political institutions disrupt the social fabric of our way of life and even threaten the continuation of liberalism itself Despite the obvious importance of the problem of unemployment however there has been a curious lack of attention paid to this issue by contemporary non Marxist political philosophers On Unemployment explores the moral implications of the problem of unemployment despite the continuing uncertainty involving both its causes and its cures Reiff takes up a series of questions about the nature of unemployment and what justice has to tell us about what we should do if anything to alleviate it The book comprehensively discusses the related theory and suggests how we might implement these more general observations in the real world It addresses the politics of unemployment and the extent to which opposition to some or all of the book's various proposals stem not from empirical disagreements about the best solutions but from more basic moral disagreements about whether the reduction of unemployment is indeed an appropriate moral goal This exciting new text will be essential for scholars and readers across business economics and finance as well as politics philosophy and sociology , *CTET Paper 1 - Primary Teachers (Class 1-5) | Central Teacher Eligibility Test | 1600+ Solved Questions [8 Full-length Mock Tests + 3 Previous Year Papers]* | EduGorilla Prep Experts, 2022-08-03 Best Selling Book in English Edition for Central Teacher Eligibility Test Paper I Class 1 5 Teachers with objective type questions as per the latest syllabus given by the Central Board of Secondary Education CBSE Compare your performance with other students using Smart Answer Sheets in EduGorilla's Central Teacher Eligibility Test Paper I Class 1 5 Teachers Practice Kit Central Teacher Eligibility Test Paper I Class 1 5 Teachers Preparation Kit comes with 11 Tests 8 Full length Mock Tests 3 Previous Year Papers with the best quality content Increase your chances of selection by 14X Central Teacher Eligibility Test Paper I Class 1 5 Teachers Prep Kit comes with well structured and 100% detailed solutions for all the questions Clear exam with good grades using thoroughly Researched Content by experts

Migration Michael Samers, Michael Collyer, 2016-12-08 While the subject of migration has received enormous attention in academic journals and books across the social sciences introductory texts on the matter are few and far between Even fewer books have explored migration through a critical and explicit engagement with spatial concepts Now in its second edition Migration remains the only text in more than a decade that emphasizes how geographical or spatial concepts can be

used critically to understand migration The multi disciplinary text draws on insights from human geography political science social anthropology sociology and to a lesser extent economics All of the chapters focus on key terms theories concepts and issues concerning migration and immigration The book argues that in the context of migration two opposing spatial positions have emerged in the wake of the critique of methodological nationalism On one hand is the significance of transnationalism and on the other the importance of sub national or local processes Both require more nuance and integration while many of the concepts and theories which have thus far neglected space or have not been treated spatially need to be re written with space in mind Pedagogically the text combines a carefully defined structure accessible language boxes that explore case studies of migrant related experiences in particular places annotated suggestions for further reading useful websites and relevant films and summary questions for student learning at the end of each chapter Migration provides a critical multi disciplinary advanced and theoretically informed introduction to migration and immigration Revised and updated with new material new maps and illustrations and an accompanying website <https://migration2ndedition.wordpress.com> it continues to be aimed at advanced undergraduates and Masters level graduate students undertaking courses on migration and immigration

Resource Nationalism in Indonesia Eve Warburton,2023-11-15 In Resource Nationalism in Indonesia Eve Warburton traces nationalist policy trajectories in Indonesia back to the preferences of big local business interests Commodity booms often prompt more nationalist policy styles in resource rich countries Usually this nationalist push weakens once a boom is over But in Indonesia a major global exporter of coal palm oil nickel and other minerals the intensity of nationalist policy interventions increased after the early twenty first century commodity boom came to an end Equally puzzling the state applied nationalist policies unevenly across the land and resource sectors Resource Nationalism in Indonesia explains these trends by examining the economic and political benefits that accrue to domestic business actors when commodity prices soar Warburton shows how the centrality of patronage to Indonesia s democratic political economy and the growing importance of mining and palm oil as drivers of export earnings enhanced both the instrumental and structural power of major domestic companies giving them new influence over the direction of nationalist change **10**
