

Essay Sample on Domestic Terrorism Currently Threatening the US Essay

Introduction

Domestic terrorism refers to the terrorists who orchestrate ideological based crimes in the US without foreign influence both tactically and philosophically. There are many categories of domestic terrorism which are defined by the ideology behind their criminal behavior (Piazza, 2011).

The Animal Rights Extremists

This category of domestic terrorism involves violent illegal activities orchestrated by animal rights extremists in the name of animal rights. The animal rights extremists are dangerous because of their violent crimes against businesses and individuals cause losses in human life and property. The philosophical underpinning behind this category of domestic terrorism is the fight for animal rights protection (Chandler, 2017).

The Anarchist Extremists

This is a category of domestic terrorism in which orchestrators commit crimes to postulate their anarchist ideals. Anarchist ideals are founded on the philosophy that autonomy and collective equality is necessary for a civilized society. Based on these ideals, anarchist extremists seek to oppose the existing hierarchical social structure because they are against a few individuals having control and power over the population (Bjelopera, 2012). The anarchist extremists continue to pose a significant threat to national security especially during the Trump administration which has faced considerable opposition based on his policies.

Anti-Government Extremists

This category of domestic terrorism involves sovereign citizens who act against the government based on differing ideologies. The anti-government extremists are individuals who are against the rule of law and order in the country and sometimes can be against arrests and in other times attack government officials and installments to prove their aggression (Kurzman, Kamal, & Yazdiha, 2017).

The White Supremacists Extremists

This category of domestic terrorism includes the group of individuals who believe that the white race is supreme over all other ethnic groups. This is a racial hate category of terrorism that involves extremist racists who commit crimes against other ethnic groups. The white supremacists have in the recent time orchestrated hate crimes towards Jews and African Americans (Johnson, 2008).

terrorism is now very much in center stage The 1970s terrorist attacks by the PLO the Provisional Irish Republican Army the Popular Front for the Liberation of Palestine the Japanese Red Army the Unabomber Aum Shinrikyo Timothy McVeigh the World Trade Center attacks the assault on a school in Russia and suicide bombers have all made the term terrorism an all too common part of our vocabulary This edition of Political Terrorism was originally published in the 1980s well before some of the horrific events noted above This monumental collection of definitions conceptual frameworks paradigmatic formulations and bibliographic sources is being reissued in paperback now as a resource for the expanding community of researchers on the subject of terrorism This is a carefully constructed guide to one of the most urgent issues of the world today When the first edition was originally published Choice noted This extremely useful reference tool should be part of any serious social science collection Chronicles of Culture called it a tremendously comprehensive book about a subject that any who have anything to lose from property to liberty life to limbs should be forewarned against The Literature of Terrorism Edward F. Terror Crime Prevention with Communities Basia Spalek,2013-08-01 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com Historically countering terrorism has been something that security services have carried out on behalf of the state without community consultation or consent Since 9 11 however this tradition has increasingly been questioned and the idea that communities have the

potential to defeat al Qaeda related or influenced terrorism has gained ascendancy across policy security and other contexts Based on research in the US Britain and Northern Ireland this book examines the involvement of Muslim and other communities in terror crime prevention work exploring the complexities of community involvement as well as its advantages and examining how trusting relationships between police security services and communities can be built Crimes of Terror Wadie E. Said, 2015 The US government's power to categorize individuals as terrorist suspects and therefore ineligible for certain long standing constitutional protections has expanded exponentially since 9 11 all the while remaining resistant to oversight Crimes of Terror The Legal and Political Implications of Federal Terrorism Prosecutions provides a comprehensive and uniquely up to date dissection of the government's advantages over suspects in criminal prosecutions of terrorism which are driven by a preventive mindset that purports to stop plots before they can come to fruition It establishes the background for these controversial policies and practices and then demonstrates how they have impeded the normal goals of criminal prosecution even in light of a competing military tribunal model Proceeding in a linear manner from the investigatory stage of a prosecution on through to sentencing the book documents the emergence of a terrorist exceptionalism to normal rules of criminal law and procedure and questions whether the government has overstated the threat posed by the individuals it charges with these crimes Included is a discussion of the large scale spying and use of informants rooted in the questionable radicalization theory the material support statute the government's chief legal tool in bringing criminal prosecutions the new rules regarding generation of evidence and the broad construction of that evidence as relevant at trial and a look at the special sentencing and confinement regimes for those convicted of terrorist crimes In this critical examination of terrorism prosecutions in federal court Professor Said reveals a phenomenon at odds with basic constitutional protections for criminal defendants Air Power Against Terror: America's Conduct of Operation Enduring Freedom Benjamin S.

Lambeth, 2001-12-12 The terrorist attacks of 9 11 plunged the United States into a determined counteroffensive against Osama bin Laden and his al Qaeda terrorist network This report details the initial US military response to those attacks namely the destruction of al Qaeda's terrorist infrastructure and the removal of the ruling Taliban regime in Afghanistan The author emphasizes several distinctive achievements in this war including the use of precision air delivered weapons that were effective irrespective of weather the first combat use of Predator unmanned aerial vehicles armed with Hellfire missiles and the integrated employment of high altitude drones and other air and space based sensors that gave CENTCOM unprecedented round the clock awareness of enemy activity Women and Terrorism Margaret Gonzalez-Perez, 2008-05-29 This book examines the relationship between women and terrorist activities in the post World War II era Utilizing comparative research into 26 terrorist organizations world wide the work identifies a dichotomy whereby women are significantly more active in domestic terrorist organizations than in international groups Women and Terrorism argues that domestic terrorist organisations employ revolution secession or other means to change internal aspects of the state and the

social and economic structure it maintains This offers the possibility of change in women s societal status therefore women are drawn to domestic terrorist organizations in much higher proportions and choose a much greater level of activity entering the ranks of combat leadership and policymaking By contrast international terrorist groups oppose outside forces such as imperialism capitalism Western culture or other more nebulous concepts Gonzalez Perez argues that female lack of participation in these activities reflects the fact that women will be relegated to the status quo regardless of the success or failure of the international terrorist movement
