Pedagogies of Kindness and Respect Paul Lee Thomas, 2015. *Pedagogies of Kindness and Respect* presents a wide variety of concepts from scholars and practitioners who discuss pedagogies of kindness as an alternative to the no-excuses ideology now dominating the way that children are raised and educated in the U.S. today. The fields of education and especially early childhood education include some histories and perspectives that treat those who are younger with kindness and respect. This book demonstrates an informed awareness of this history and the ways that old and new ideas can counter current conditions that are harmful to both those who are younger and those who are older while avoiding the reconstitution of the romantic innocent child who needs to be saved by more advanced adults. Two interpretations of the upbringing of children are investigated and challenged: one suggesting that the poor do not know how to raise their children and thus need help, while the other looks at those who are privileged and therefore know how to nurture their young. These opposing views have been discussed and problematized for more than thirty years. *Pedagogies of Kindness and Respect* investigates the issue of why this circumstance has continued and even worsened today.

Student Services John H. Schuh, Susan R. Jones, Shaun R. Harper, 2010-10-19. Now in its fifth edition, *Student Services: A Handbook for the Profession* has been hailed as a classic reference in the field. In this important resource, a new cast of student affairs scholars and practitioners examine the changing context of the student experience in higher education, the evolution of the role of student affairs professionals, and the philosophies, ethics, and theories that guide the practice of student affairs work. The fifth edition covers a broad range of relevant topics, including historical roots and development of the profession, philosophies and ethical standards, legal issues, theoretical bases of the profession, organizing and managing student affairs programs, and essential competencies: leadership, multiculturalism, supervision, teaching, counseling, and helping skills, advising and consultation, conflict resolution, community development, professionalism, and developing institutional partnerships. It also addresses the future of student affairs practice and how it is informed by student learning outcomes and technology. The painstakingly thorough coverage of topics important to the profession of student affairs makes this handbook a valuable resource to the scholarly and practice communities of the profession.

John M. Braxton, professor, Higher Education Leadership and Policy Program, Peabody College, Vanderbilt University, editor, *Journal of College Student Development*. Continues three decades of excellence in providing a comprehensive set of resources that provides firm grounding for the higher education student affairs community in all aspects of our profession.

Michael J. Cuyjet, professor, Department of Educational and Counseling Psychology, University of Louisville. Casts an impressively wide net, thoroughly capturing critical topics and offering a deeply nuanced and technical yet readily accessible narrative trajectory and study of student affairs in higher education.

Theresa A. Powell, vice president for student affairs, Temple University.
