Women Defying Hitler Nathan Stoltzfus, Mordecai Paldiel, Judy Baumel-Schwartz, 2021-08-12 This timely volume brings together an international team of leading scholars to explore the ways that women responded to

situations of immense deprivation need and victimization under Hitler's dictatorship. Paying acute attention to the differences that gender made, *Women Defying Hitler* examines the forms of women's defiance, the impact these women had, and the moral and ethical dilemmas they faced. Several essays also address the special problems of the memory and historiography of women's history during World War II, and the book features standpoints of historians as well as the voices of survivors and their descendants. Notably, this book also serves as a guide for human behaviour under extremely difficult conditions. The book is relevant today for challenging discrimination against women and for its nuanced exploration of the conditions minorities face as outspoken protagonists of human rights issues and as resisters of discrimination. From this perspective, the voices being empowered in this book are clear examples of the importance of protest by women in forcing a totalitarian regime to pause and reconsider its options for the moment. In revealing so, *Women Defying Hitler* ultimately foregrounds that women rescuers and resisters were and are of great continuing consequence.

[Risk communication in animal disease outbreaks and emergencies](#) Food and Agriculture Organization of the United Nations, 2020-05-01. Risk Communication by the State Veterinary Service plays an important role in disease risk mitigation and is an integral part of risk management during animal health emergencies and zoonotic outbreaks. Effective communication recognises its unique functions as complementary to but unique among the other non-communication functions required during an emergency or outbreak response such as logistics, epidemiology and finances. Communication is uniquely positioned to build knowledge, influence attitudes, raise awareness, build perceptual associations between recommendations and stakeholders or audiences, values, customs and beliefs. Furthermore, effective communication focusses on the outcome for the audience or stakeholder rather than on the activities of the State Veterinary Service or its partners. This publication is based on a Risk Communication Strategy that the FAO Animal Health Emergency Centre for Transboundary Animal Diseases (ECTAD) in Myanmar developed for the Ministry of Agriculture, Livestock and Irrigation (MoALI), Livestock Breeding and Veterinary Department (LBVD) of the Republic of the Union of Myanmar. The Warning Project, a not-for-profit company specialising in risk communication, led this strategy development in Myanmar. The Myanmar Risk Communication document is edited in this version to make it applicable to State Veterinary Services in other countries.

Real House Lives Michael Morden et al., 2020-02-01. We're not just in a sort of post-truth politics, but we're in a post-democratic politics. Former Member of Parliament, Democracy's future has

become uncertain Politicians are viewed with deep cynicism Political parties have lost touch with mass society Citizens expectations of what their democracy should do have outstripped what their institutions can provide All of this is feeding a wave of polarization populism and anxiety around the world with Canadians much more likely to say their democracy is becoming weaker rather than stronger Real House Lives uses the stories and experiences of former parliamentarians to understand what s going wrong with our national politics and to put forward a vision of democratic representation that is independent thoughtful engaged and empowered It follows MPs through their lives and work exploring how this vision of political leadership can be realized through a stronger Parliament better local democratic engagement and healthier parties This may be an ambitious view but Canadian democracy requires ambition especially in a public climate of increasing partisanship cynicism and distrust This book is for anyone who has ever imagined offering their career and life to public service It s a how to guide an inspirational account and perhaps a warning

Model Railroad Craftsman ,1986 Neoliberalizing Spaces in the Philippines Arnisson Andre Ortega,2016-09-09 Amidst the recent global financial crisis and housing busts in various countries the Philippines booming housing industry has been heralded as Southeast Asia s hottest real estate hub and the saving grace of a supposedly resilient Philippine economy This growth has been fueled by demand from balikbayan returnee Overseas Filipinos and has facilitated the rise of gated

suburban communities in Manila's sprawling peri urban fringe But as the Filipino dreams of successful balikbayans are built inside these new gated residential developments the lives of marginalized populations living in these spaces have been upended and thrown into turmoil as they face threats of expulsion Based on almost four years of research this book examines the tumultuous geographies of neoliberalization that link suburbanization transnational mobilities and accumulation by dispossession Through an accounting of real estate and new suburban landscapes it tells of a Filipino transnationalism that engenders a market based and privatized suburban political economy that reworks socio spatial relations and class dynamics In presenting the literal and discursive transformations of spaces in Manila's peri urban fringe the book details life inside new gated suburban communities and discusses the everyday geographies of privileged new property owners mainly comprised of balikbayan families and exposes the contradictions of gated suburban life from resistance to Home Owner Association rules to alienating feelings of loss It also reveals the darker side of the property boom by mapping the volatile spaces of the Philippines surplus populations comprised of the landless farmers informal settler residents and indigenous peoples To make way for gated communities and other profitable developments in the peri urban region marginalized residents are systematically dispossessed and displaced while concomitantly offered relocation to isolated socialized housing projects the last frontier for real estate accumulation These compelling accounts illustrate how the territorial embeddedness of neoliberalization in the Philippines entails the consolidation of capital by political economic elites and privatization of residential space for an idealized transnational property clientele More than ever as the Philippines is being reshaped by diaspora and accumulation by dispossession the contemporary moment is a critical time to reflect on what it truly means to be a nation
