STJ Heron,2022-05-04 What stake do we as Foundational Black Americans really have to claim in the history of this country this continent and the world if any When you think of Foundational Black Americans formerly misnomered as African Americans Negroes Coloreds Black what thought comes to mind and what accomplishments are we known for Were we slaves brought to this country by force low class citizens of a foreign nation with no home to call their own Or is there more to the story so much more that even the mere mention of our accolades would discredit the history of the masses What if I were to tell you that our history in this country from the perspective that everything we have been taught is but a half truth Who built the buildings roads and monuments in this country Where did those people come from and where did they go Where did the many science technology and artforms of the country and the world develop What is the hidden history behind what we are taught but most importantly why is this knowledge kept from us This book will capture some of the lesser known accomplishments and esoteric information that has been passed down word of mouth by some and systematically discredited by others Fortunately true knowledge can neither cease nor desist and this text will show what you can do to utilize that information today It is time that we take our own history by the rungs away from those who would paint an inaccurate picture of our past This will allow us to re introduce ourselves not for exposure and clout but for self vindication and reasonable doubt **A Crisis of Waste?** Martin O'Brien,2012-11-12 This book takes a measured look at the crisis of waste in modern society and it does so historically sociologically and critically It tells stories about past and present crises of waste and puts them in their appropriate social and industrial contexts From Charles Dickens to Don DeLillo from the internal combustion engine to fish fingers from kitchen grease to the Tour de France this book digs deep into society s dust piles and emerges with untold treasures of the imagination [Designing America's Waste Landscapes](#) Mira Engler,2004-05-31 Publisher Description **The Dirt on Clean** Katherine Ashenburg,2024-03-26 Brimming with lively anecdotes this endearing history of Western cleanliness holds a welcome mirror up to our intimate selves Publishers Weekly The question of cleanliness is one every age and culture has answered with confidence For the first century Roman being clean meant a two hour soak in baths of various temperatures scraping the body with a miniature rake and a final application of oil For the aristocratic Frenchman in the seventeenth century it meant changing your shirt once a day and perhaps going so far as to dip your hands in some water Did Napoleon know something we didn t when he wrote Josephine I will return in five days Stop washing And why is the German term Warmduscher a man who washes in warm or hot water invariably a slight against his masculinity Katherine Ashenburg takes on such fascinating questions as these in Dirt on Clean her charming tour of attitudes to hygiene through time An engrossing fusion of erudition and anecdote Dirt on Clean considers the bizarre prescriptions of history s doctors the hygienic peccadilloes of great authors and the historic twists and turns that

have brought us to a place Ashenburg considers hedonistic yet oversanitized Fascinating School Library Journal Dozens of charming illustrations distinguish a book notable for its engaging design as well as its illuminating content Kirkus Reviews

Sweet and Clean? Susan North, 2020-03-26 Sweet and Clean challenges the widely held beliefs on bathing and cleanliness in the past For over thirty years the work of the French historian George Vigarello has been hugely influential on early modern European social history describing an aversion to water and bathing and the use of linen underwear as the sole cleaning agent for the body However these concepts do not apply to early modern England Sweet and Clean analyses etiquette and medical literature revealing repeated recommendations to wash or bathe in order to clean the skin Clean linen was essential for propriety but advice from medical experts was contradictory Many doctors were convinced that it prevented the spread of contagious diseases but others recommended flannel for undergarments and a few thought changing a fever patient's linens was dangerous The methodology of material culture helps determine if and how this advice was practiced Evidence from inventories household accounts and manuals and surviving linen garments tracks underwear through its life cycle of production making wearing laundering and final recycling Although the material culture of washing bodies is much sparser other sources such as the Old Bailey records paint a more accurate picture of cleanliness in early modern England than has been previously described The contrasting analyses of linen and bodies reveal what histories material culture best serves Finally what of the diseases plague smallpox and typhus that cleanliness of body and clothes were thought to prevent Did following early modern medical advice protect people from these illnesses **Thinking in Writing** Donald

McQuade, Robert Atwan, 1988 **Picking Up** Robin Nagle, 2013-03-19 A gripping behind the scenes look at New York's sanitation workers by an anthropologist who joined the force Robert Sullivan author of Rats America's largest city generates garbage in torrents 11 000 tons from households each day on average But New Yorkers don't give it much attention They leave their trash on the curb or drop it in a litter basket and promptly forget about it And why not On a schedule so regular you could almost set your watch by it someone always comes to take it away But who exactly is that someone And why is he or she so unknown In Picking Up the anthropologist Robin Nagle introduces us to the men and women of New York City's Department of Sanitation and makes clear why this small army of uniformed workers is the most important labor force on the streets Seeking to understand every aspect of the Department's mission Nagle accompanied crews on their routes questioned supervisors and commissioners and listened to story after story about blizzards hazardous wastes and the insults of everyday New Yorkers But the more time she spent with the DSNY the more Nagle realized that observing wasn't quite enough so she joined the force herself Driving the hulking trucks she obtained an insider's perspective on the complex kinships arcane rules and obscure lingo unique to the realm of sanitation workers Nagle chronicles New York City's four hundred year struggle with trash and traces the city's waste management efforts from a time when filth overwhelmed the streets to the far more rigorous practices of today when the Big Apple is as clean as it's ever been An intimate look at the mostly male work force as

they risk injury and endure insult while doing the city's dirty work and a fascinating capsule history of the department Publishers Weekly Nagle's passion for the subject really comes to life The New York Times Evokes the physical and psychological toll of this dangerous filthy necessary work Nature Nagle joins the likes of Jane Jacobs and Jacob Riis writers with the chutzpah to dig deep into the Rube Goldberg machine we call the Big Apple and emerge with a lyrical clear-eyed look at how it works Mother Jones

Victorian Contagion Chung-jen Chen, 2019-08-29 Victorian Contagion Risk and Social Control in the Victorian Literary Imagination examines the literary and cultural production of contagion in the Victorian era and the way that production participated in a moral economy of surveillance and control In this book I attempt to make sense of how the discursive practice of contagion governed the interactions and correlations between medical science literary creation and cultural imagination Victorians dealt with the menace of contagion by theorizing a working motto in claiming the goodness and godliness in cleanliness which was theorized realized and radicalized both through practice and imagination The Victorian discourse around cleanliness and contagion including all its treatments and preventions developed into a culture of medicalization a perception of surveillance a politics of health an economy of morality and a way of thinking This book is an attempt to understand the literary and cultural elements which contributed to fear and anticipation of contagion and to explain why and how these elements still matter to us today

Entry Points Carin Kuoni, Chelsea Haines, 2016-01-22 Providing a lively snapshot of the state of art and social justice today on a global level Entry Points accompanies the inaugural Vera List Center Prize for Art

and Politics launched at The New School on the occasion of the center's twentieth anniversary. This book captures some of the most significant worldwide examples of art and social justice and introduces an interested audience of artists, policy makers, scholars, and writers to new ways of thinking about how justice is defined, advanced, and practiced through the arts. In so doing, it assembles some of the latest scholarship in this field while refining our vocabulary for speaking about social justice, social engagement, community enhancement, empowerment, and even art itself. The book's first half contains three essays by Thomas Keenan, João Ribas, and Sharon Sliwinski that map the field of art and social justice. These essays are accompanied by more than twenty profiles of recent artist projects that consist of brief essays and artist pages. This curated and carefully considered map of artists and projects identifies key moments in art and social justice. The book's second half consists of an in-depth analysis of Theaster Gates's The Dorchester Projects, which won the inaugural Vera List Prize for Art and Politics. Produced to complement the project's exhibition at the Sheila C. Johnson Design Center, Parsons School of Design, in September 2013, this analysis illuminates Gates's rich, complex, and exemplary work. This section includes an interview between Gates and Vera List Center director Carin Kuoni, essays by Horace D. Ballard Jr., Romi N. Crawford, Shannon Jackson, and Mabel O.
