and practice The second focuses on the question of access of refugees to asylum territories and refugee status determination procedures within the framework of the 1951 Convention on the Status of Refugees and the current Swiss asylum law The third centres on the wider protection regime currently being forged in Europe to address a broader category of refugees including solutions for temporary and subsidiary protection The final theme revolves around return of refugees including those under the Dayton and recent Kosovo agreements and covers reintegration of returnees assistance and long term development This work is based on papers presented at a colloquium of the Graduate Institute of the International Studies in Geneva which was organised in collaboration with the Office of the United Nations High Commissioner for Refugees as a contribution to the 50th anniversaries of the UNHCR and the Geneva Convention relating to the Status of Refugees
