Automotive Scan Tool PID Diagnostics Mandy Concepcion, 2011-10-06 Automotive Scan Tool PID Diagnostics. Diagnostics Strategies of Modern Automotive Systems. By Mandy Concepcion. In this section the different techniques of scan tool parameter PID analysis will be exposed. Techniques involving PID analysis are quickly catching on due to their speed and accuracy. By properly analyzing the different scanner PIDs the technician can arrive at the source of the problem much faster and accurately. These procedures give rise to the new term driver seat diagnostics since most of the preliminary diagnostic work is done through the scanner. However, these techniques will in no way replace the final manual tests that are a part of every diagnostic path. They are simply geared to point the technician in the right direction. Make Your Own Diagnostic Equipment (MYODE) Mandy Concepcion, 2013-01-09 Make Your Own Diagnostic Equipment MYODE This book Make Your Own Diagnostic Equipment came about from the need of many readers and viewers to be able to make and maintain fairly simple diagnostic gadgets It is meant to show and guide the professional technician and DIY mechanic on how to make these gadgets In many cases due to the nature of the equipment industry it is very expensive or virtually impossible to get these tools The reason being is that often times tool makers don't see a profit in making these simple but effective gadgets Most if not all of these tools are invaluable in diagnosing modern automotive systems You can estimate that having one of these tools at the right time when needed will cut your diagnostic time by at least 50% Of course knowing how to use it is also important However by definition if you've already studied how the gadget works how to build it and also ended up building it yourself you've already passed the learning curve and chances are you'll know how to use it At the very least reading this book will put you in a much better position to also assess diagnostic issues and on the use of other important tools of automotive diagnostics It is our hope with this work to enlighten the professional and DIY mechanic on the use construction and

operation of modern automotive diagnostic gadgets Use this information to the best of your abilities and be on the diagnostic driver seat Table of Contents Automotive Low Pressure Transducer Building the Low Pressure Transducer Using the Low Pressure Transducer Polarity LED Test Light Using the Polarity LED Test Light Stress Loaded Test Light Using the Stress Loaded Test Light Building the Stress Loaded Test Light Fuel Pump Relay the Stress Loaded Test Light Dual Polarity 5 Volt Reference Test Light Amplified Sensor Tester Injector Coil Magnetic Detector Fuel Injector Pulser ECM ECU Memory Saver Tool Loaded Injector Noid Light Using the Loaded Injector Noid Light 5 Volt Reference Simulator Parasitic Draw Amp Meter Using the Parasitic Draw Amp Meter Fuse Voltage Drop Short Identifier How to Use the Fuse Voltage Drop Short Identifier Ignition Primary DIS COP Probe How to Use the Ignition Primary DIS Probe Drive By Wire Motor Actuator Controller How to Use the Drive By Wire Actuator Controller Ignition Key Transponder Detector Using the Ignition Key Transponder Detector Magnetic Sensor Induction Simulator Using the Magnetic Sensor Induction Simulator O2 Sensor Simulator Using the O2 Sensor Simulator ABS Speed Sensor Simulator Using the ABS Speed Sensor Simulator ABS Speed Sensor Simulator Bleeding the Brakes Optical CAM and CRANK Sensor Simulator Using the Optical CAM and CRANK Sensor Simulator OBD 2 Data Link Connector Breakout Box Using the OBD 2 DLC Breakout Box **Techniques on Using**
