Sport Peter J. Miller, 2022-12-15 Modern sport cannot be understood without ancient sport Sport saturates contemporary society and the global reach of sport and its intense popularity characterizes the modern world But at the same time sport is one of the most ancient human pursuits In the globalized sport of today the type of athletic performance and the ideology of sport and its apparent origins are mostly derived from the model of one pre modern civilization Graeco Roman antiquity Juxtaposing ancient writers with recent ones including the modern Olympic founder Pierre de Coubertin and physical fitness impresario Bernarr Macfadden and by examining the representation of sport in Olympic films Miller demonstrates the ancient heritage of contemporary sport and the creative ways in which ancient sport has been adapted appropriated mishandled and reimagined Sport today contains a surprising contradiction its explicit modernity from its technological sophistication and integration into capitalist markets to its institutionalization and celebrity culture and its supposed antiquity from the mythology of the Olympics to the ancient roots of sporting civic and national pride and the emotional and near religious fervour of sports fans This book intervenes in one of the most important of the receptions of classical antiquity by examining how sports personalities agencies institutions and movements have consciously connected themselves to the Graeco Roman past even as they continue to insist on their own centrality in the modern world

Sport, Literature, Society Alexis Tadié, J.A. Mangan, Supriya Chaudhuri, 2016-04-08 Sport studies and sports history have witnessed a recent substantial increase in publications However the relationship between literature and sport has been little explored Sport Literature Society looks at a wide variety of case studies ranging from Japan to England from India to Australia and covers sports as diverse as cycling football wrestling and boxing It concentrates on historical perspectives The contributors are all academics of international reputation and include historians of sport and literary scholars Literature may shape our perceptions and reactions to sport as much as sport may inform our reading As mimetic practice as aesthetic object as imaginative release sport is analogous to literature and the other arts at the same time it can become the subject of literary visual or musical elaborations Literature often conceptualises the place and role of sport in culture and society Indeed sport inhabits literature in ways that have not been adequately studied Sport studies have investigated the relationships between sport and society education gender nation and class To look again at these relationships through the prism of literature enables us to change our focus and to assess the centrality of sport in culture This book was published as a special issue of the International Journal of the History of Sport

The Making of Sporting Cultures John Hughson, 2013-09-13 The Making of Sporting Cultures presents an analysis of western sport by examining how the collective passions and feelings of people have contributed to the making of sport as a way of life The popularity of sport is so pronounced in some cases that we speak of certain sports as national pastimes Baseball in the United States soccer in Britain

and cricket in the Caribbean are among the relevant examples discussed Rather than regarding the historical development of sport as the outcome of passive spectator reception this work is interested in how sporting cultures have been made and developed over time through the active engagement of its enthusiasts This is to study the history of sport not only from below but also from within as a means to understanding the deep relationship between sport and people within class contexts the middle class as well as the working class Contestation over the making of sport along axes of race gender and class are discussed where relevant A range of cultural writers and theorists are examined in regard to both how their writing can help us understand the making of sport and as to how sport might be located within an overall cultural context in different places and times The book will appeal to students and academics within humanities disciplines such as cultural studies history and sociology and to those in sport studies programmes interested in the historical cultural and social aspects of sport This book was published as a special issue of Sport in Society
