Handbook of Research on Mathematical Modeling for Smart Healthcare Systems Samanta, Debabrata, Singh, Debabrata, 2022-06-24. Advances in healthcare technologies have offered real time guidance and technical assistance for diagnosis, monitoring, operation and interventions. The development of artificial intelligence, machine learning, internet of things technology and smart computing techniques are crucial in today's healthcare environment as they provide frictionless and transparent financial transactions and improve the overall healthcare experience. This in turn has far reaching effects on economic, psychological, educational and organizational improvements in the way we work, teach, learn and provide care. These advances must be studied further in order to ensure they are adapted and utilized appropriately. The *Handbook of Research on Mathematical Modeling for Smart Healthcare Systems* presents the latest research findings, ideas, innovations, developments and applications in the field of modeling for healthcare systems. Furthermore, it presents the application of innovative techniques to complex problems in the case of healthcare. Covering a range of topics such as artificial intelligence, deep learning and personalized healthcare services, this reference work is crucial for engineers, healthcare professionals, researchers, academicians, scholars, practitioners, instructors and students.
