

Sample SLO:

1. Student Learning Goal: a statement of intended learning that describes what students will know, understand or be able to do (inclusive of Standards & Curriculum) by the end of the instructional interval;

ESTABLISHING A MEASURABLE LEARNING GOAL:

Student Population:	Total Number of Students: 28 Program Participation IEP: 4 ELL: 14 GT: 1 Other: N/A Additional Information:
Learning Goal:	<u>Student Learning Goal (Write out goal here.)</u> Students will write informative/explanatory paragraphs that introduce a topic, group related information, and develop and conclude their topic.
	<u>Why is this goal important for students to know and be able to do?</u> This is an important goal for students in 3rd grade because it is expected that at the 4th grade level students will have these skills so that they can work on the next learning progressions for writing. Students without these foundational skills in 4th grade will be behind and will continue to struggle. This goal is set based on the expected Common Core Standards for 3rd grade Writing as well as some Literacy and Language standards.
	<u>Does the Learning Goal demonstrate: ☒ Endurance? ☒ Leverage? ☒ Readiness?² How?</u> This SLO goal demonstrates a DOK level 3 for students in 3rd grade. This is rigorous and creates a foundation for writing development in subsequent grade levels. Success in this SLO means students are ready for 4th grade and can build on the skills learned.

Defensible Teacher Evaluation Rick Stiggins, 2014-03-11 Meaningful teacher evaluation starts with visible student growth. Annual standardized test scores cannot provide evidence of student growth needed to evaluate teacher performance. But consider student growth in the form of evidence derived from classroom assessment and you're on to something. For assessment expert Rick Stiggins, this can form the basis for a truly productive teacher evaluation strategy. This revolutionary book helps you bring classroom assessment to bear for real school improvement with a plan for teacher evaluation based in part on dependable evidence of student growth. Strategies for improving the assessment literacy of teachers and school leaders. Five steps for developing and implementing productive local district assessment systems. Practical tools that teachers and their evaluators can put to use immediately. In this era of aggressive teacher evaluation reform where teachers are charged with preparing ALL students to master 21st century proficiencies, the measurement of teacher success must start where learning happens in the classroom. Developing a fair, practical, and effective teacher evaluation system is like climbing a high mountain; it's impossible until someone finds a route. That's what Rick does in this book. He identifies the immense challenges associated with using evidence on student learning as the principal criteria in teacher evaluation and then offers practical guidance for overcoming those challenges. He hasn't made the climb easy, but he shows us the way. Thomas R. Guskey, Professor of Educational Psychology, University of Kentucky. Rick Stiggins builds a compelling case for the development of a solid foundation of assessment competence throughout our educational system. Linda Darling-Hammond, Charles E. Ducommun, Professor of Education, Stanford University. **Teacher Evaluation that Makes a Difference** Robert J. Marzano, Michael D. Toth, 2013. In *Teacher Evaluation That Makes a Difference*, Robert J. Marzano and Michael D. Toth introduce a new model of teacher evaluation that takes into account multiple, data-rich measures of teacher performance and student growth to ensure fair, meaningful, and reliable evaluations for all teachers. *10 Models of Teacher Evaluation* David Silverberg, Linda Jungwirth, 2014-02-04. For the first time, school districts around the country are being required to adopt formal accountability measures to assess teacher effectiveness. In a radical shift, teacher quality will be based on outputs: student achievement, teacher observations, rather than inputs: years of service, degrees attained. This change in school culture and practice is an attempt to improve everything from individual student learning to national economic competitiveness. It also requires that administrators implement new and rigorous teacher evaluation programs that align with state and federal guidelines. Busy administrators lack the training and experience necessary to quickly and efficiently craft a teacher evaluation system that successfully meets the needs of their district. Questions like "What is the best program for my district?" or "How do I get the teachers on board?" are being asked by school leaders across the country. This book provides real-world answers by highlighting 10 diverse model programs from around the country. **Improving Teacher Evaluation Systems** Jason A. Grissom, Peter Youngs, 2016. This is the first book to gather and address what we have learned about the impacts and

challenges of data intensive teacher evaluation systems a defining characteristic of the current education policy landscape
