Small Giants Companies That Choose To Be Great:

Small Giants Bo Burlingham, 2016-10-11 How maverick companies have passed up the growth treadmill and focused on greatness instead It's an axiom of business that great companies grow their revenues and profits year after year Yet quietly under the radar a small number of companies have rejected the pressure of endless growth to focus on more satisfying business goals Goals like being great at what they do creating a great place to work providing great customer service making great contributions to their communities and finding great ways to lead their lives In *Small Giants* veteran journalist Bo Burlingham takes us deep inside fourteen remarkable companies that have chosen to march to their own drummer They include Anchor Brewing the original microbrewer CitiStorage Inc the premier independent records storage business Clif Bar Righteous Babe Records the record company founded by singer songwriter Ani DiFranco Union Square Hospitality Group the company of restaurateur Danny Meyer and Zingerman's Community of Businesses including the world famous Zingerman's Deli of Ann Arbor Burlingham shows how the leaders of these small giants recognized the full range of choices they had about the type of company they could create And he shows how we can all benefit by questioning the usual definitions of business success In his new afterward Burlingham reflects on the similarities and learning lessons from the small giants he covers in the book

Small Giants Bo Burlingham, 2017-08-07 *Small Giants Companies That Choose to Be Great Instead of Big* By Bo Burlingham *Finish Big* Bo Burlingham, 2014-11-28 No two exit experiences are exactly alike Some people wind up happy with the process and satisfied with the way it turned out while others look back on it as a nightmare The question I hope to answer in this book is why What did the people with good exits do differently from those who'd had bad exits When pioneering business journalist and Inc magazine editor at large Bo Burlingham wrote *Small Giants* it became an instant classic for its original take on a common business problem how to handle the pressure to grow Now Burlingham is back to tackle an even more common problem how to exit your company well Sooner or later all entrepreneurs leave their businesses and all businesses get sold given away or liquidated Whatever your preferred outcome you need to start planning for it while you still have time and options The beautiful part is that if you start early enough the process will lead you to build a better stronger more resilient company as well as one with a higher market value Unfortunately most owners don't start early enough and pay a steep price for their procrastination Burlingham interviewed dozens of entrepreneurs across a range of industries and identified eight key factors that determine whether owners are happy after leaving their businesses His book showcases the insights exit plans and cautionary tales of entrepreneurs such as Ray Pagano founder of a leading manufacturer of housings for security cameras He turned down a bid for his company and instead changed his management style resulting in a subsequent sale for four times the original offer Bill Niman founder of the iconic Niman Ranch which revolutionized the meat industry He learned about unhappy exits when he was forced to sell to private equity investors leaving him with nothing to show for his thirty five years in business Gary Hirshberg founder of organic yogurt pioneer

Stonyfield Farm He pulled off the nearly impossible task of finding a large company that would buy out his 275 small investors at a premium price while letting him retain complete control of the business Through such stories Burlingham offers an illuminating and inspirational guide to one of the most stressful and yet potentially rewarding processes business owners must go through And he explores the emotional challenges they face at every step of the way At the end of the day owning a business is about more than selling goods and services It s about making choices that shape your entire life both professional and personal Finish Big helps you figure out how to face your future with confidence and be able to someday look back on your journey with pride *Small Giants*,2010 **Summary: Small Giants** Businessnews

develops his idea that companies flourish when they become centers of interdependence or communities of enterprise. Thoroughly revised with an expanded focus on employee ownership and workplace democracy, *Companies We Keep* celebrates the idea that when employees share in the rewards as well as the responsibility for the decisions they make, better decisions result. This is an especially timely topic. Most of the baby boomer generation, the owners of millions of American businesses, will retire within the next two decades. In 2001, 50,000 businesses changed hands. In 2005, that number rose to 350,000. Projections call for 750,000 ownership transitions in 2009. Employee ownership, in both the philosophical and the practical sense, is gathering steam as businesses change hands, and Abrams examines some of the many ways this is done. *Companies We Keep* is structured around eight principles from *Sharing Ownership and Cultivating Workplace Democracy* to *Thinking Like Cathedral Builders* and *Committing to the Business of Place* that Abrams has discovered in the 32 years since he cofounded South Mountain Company on the island of Martha's Vineyard. Together, these principles reveal communities of enterprise as a potent force of change that can and will improve the way Americans do business. [The Great Game of Business, Expanded and Updated](#) Jack Stack, Bob Burlingham, 2013-07-16. In the early 1980s, Springfield Remanufacturing Corporation (SRC) in Springfield, Missouri, was a near-bankrupt division of International Harvester. That's when a green young manager, Jack Stack, took over and turned it around. He didn't know how to manage a company, but he did know about the principal of athletic competition and democracy: keeping score, having fun, playing fair, providing choice, and having a voice. With these principals, he created his own style of management: open book management. The key is to let everyone in on financial decisions. At SRC, everyone learns how to read a P&L; even those without a high school education know how much the toilet paper they use cuts into profits. SRC people have a piece of the action and a vote in company matters. Imagine having a vote on your bonus and on what businesses the company should be in. SRC restored the dignity of economic freedom to its people. Stack's open book management is the key: a system which, as he describes it here, is literally a game and one so simple anyone can use it. As part of the Currency paperback line, the book includes a User's Guide, an introduction, and a discussion guide created for the paperback by the author to help readers make practical use of the book's ideas. Jack Stack is the president and CEO of the Springfield Remanufacturing Corporation in Springfield, Missouri. The recipient of the 1993 Business Enterprise Trust Award, Jack speaks throughout the country on *The Great Game of Business and Open Book Management*. **Playing with Purpose** Steve Hutchinson, Helen Lawrence, 2017-03-02. *Playing with Purpose* shows how a facilitator, coach, manager, people developer, or trainer can invent or reinvigorate an artificial learning experience and make it so much more than a game. The authors look at a range of dilemmas, challenges, and problems faced by anyone wanting to run memorable training sessions, classes, and project meetings, and then demonstrate how to get powerful lessons from the simplest of household and office objects and situations. The exercises and ideas outlined provide a focused examination of a range of training aims and outcomes, including leadership, teamwork, communications, equality, and diversity, feedback, and

personal effectiveness as well as general energisers closers and problems to be solved Steve Hutchinson and Helen Lawrence believe that seeing their sustainable creative approach to experiential learning explicitly laid out will give you the confidence to develop your own solutions
