The Primary ICT & E-learning Co-ordinator's Manual James Wright, 2007-05-23 This book is absolutely wonderful. It will be my new Bible. I have used it loads already in preparation for my ICT Mark assessment. Taking on the role of ICT co-ordinator can be quite a daunting task but this step by step guide breaking things down into manageable chunks will be very supportive. I love the blogging idea; the comments made by the characters are very realistic. This is just what new co-ordinators need. I wish I'd had this when I took over co-ordination of ICT. Christine Beedham, Primary ICT adviser, Warrington. Every primary school has the daunting task of embedding ICT and e-learning into their curriculum. This practical manual is the first part of a two volume set that together makes up a detailed two year training programme for primary ICT and e-learning co-ordinators. The books combine key strategies and information with a weblog discussion from a group of virtual co-ordinators who share their problems, fears and successes over the two year programme based on the author's wide experience of working with new co-ordinators and experienced staff on training programmes and in general support. Book 1 is designed specifically for co-ordinators new to the role who need starting points and broad support. It presents a structured training programme split over three terms guiding co-ordinators through the key stages of developing and implementing ICT policy and practice including o auditing existing school systems o reviewing and revising the school policy for ICT o reviewing the ways in which ICT is used as a teaching and learning tool across the curriculum o examining methods for the management of technical support services o establishing a clear overview of standards in ICT including a review of assessment procedures moderating work monitoring teaching and learning and creating E Portfolios. The books have a companion website which will offer downloadable versions of the photocopiable sheets from the book as well as links to other sources of help and advice.
