

Abstract

This paper is going to cover the policies of attraction and chastisement in the American-Spanish war. The America-Spanish war began when there was a tariff imposed in 1894 restricting the importation of sugar to United States from Cuba. This could affect the economy of Cuba. The people of Cuba were angry at Spain, who was their colonial power. The Spanish community was causing the Cubans to live poorly because the economy was declining. American businesspersons became concerned with this situation, because they had investments in Cuba. This led to American invasion of Cuba and overthrew the Spaniards. They used various tactics to win the support of the people; both policies of attraction and chastisement. After taking over, the Americans set their bases in Philippines and colonized it. The Americans used the policies of attraction and chastisement to woo the support of the locals.

American Propaganda from the Spanish-American War to Iraq Steven R. Brydon, 2021-11-01 In this book Steven R. Brydon analyzes American war propaganda spanning from the Spanish American War through the wars in Afghanistan and Iraq Brydon argues that many of these wars were fought based on false or misleading narratives beginning with blaming Spain for the sinking of the Maine and continuing most recently with charges that Saddam Hussein had weapons of mass destruction and was involved in the terrorist attacks of September 11 Research has shown that well told stories can affect the public's beliefs attitudes and actions and Brydon has identified some of these recurring stories that have been told to support and sustain each war during this time period Using Fisher's narrative paradigm Brydon critically evaluates these war stories to determine if they possessed narrative coherence and fidelity that provided good reasons to go to war rather than simply the appearance of these qualities The responsibility Brydon stresses is on the media and on academics to view future war narratives through a critical lens in order to best inform the American people Scholars of media studies history military studies American studies and international relations will find this book particularly useful

Manhood, Citizenship, and the National Guard Eleanor L. Hannah, 2007 During the Gilded Age and the Progressive Era thousands upon thousands of American men devoted their time and money to the creation of an unsought and in some quarters unwelcome revived state militia In this book Eleanor L. Hannah studies the social history of the National Guard focusing on issues of manhood and citizenship as they relate to the rise of the state militias The implications of this book are far reaching for it offers historians a fresh look at a long ignored group of men and unites social and cultural history to explore changing notions of manhood and citizenship during years of frenetic change in the American landscape
