

Exposition

It was about 11:00 at night, and Mrs. Jones was walking alone, when Roger ran up behind her and tried to steal her purse (pocketbook).

Conflict

Roger tries to steal Mrs. Luella Bates Washington Jones' purse and run, but he falls down. Mrs. Jones talks to him and he lies about trying to steal.

Rising Action

Mrs. Jones grabs Roger and drags him back to her house. Roger says he's sorry many times. She takes him to her house, tells him to wash his face, and cooks him dinner. He explains he wants money for blue suede shoes.

Climax

Mrs. Jones leaves Roger alone while she cooks, and he tries to decide whether he should run or stay. He stays and does not run away.

Falling Action

Roger learns that Mrs. Jones has made mistakes in her life too. They talk about this over dinner. She tells him not to lie or steal anymore.

Resolution

Mrs. Jones gives Roger the ten dollars to buy blue suede shoes and lets him leave.

Let's Talk Simon Burnham, 2008-06-18 Includes CD Rom If you want to know what's wrong with someone ask them they may tell you Kelly in Bannister and Fransella 1986 This quote from George Kelly originator of Personal Construct Psychology PCP illustrates with humour his important theory that each one of us has developed a very personal and individual system for making sense of the world The ways in which we think feel about and understand the world around us all depend on the nature of this system of personal constructs we have devised In order to make sense of the behaviour of another person we have to begin by understanding his or her personal constructs which means talking to them and asking them to talk about themselves Simon Burnham is a practitioner who uses and teaches personal construct theory and has written a practical book which introduces the theory in an accessible way provides exercises and examples to illustrate the relevance of PCP to all our lives explains how to use PCP in support and interview sessions with young people extends its use into the practice of advocacy and representation Readers attempting to understand the views and motivations of children and young people and representing or explaining these views to others will find that this book offers valuable practical ways to enhance the work they do The book sets out to influence practice and includes a PowerPoint interview and assessment session which can be used with a child or young person via a laptop or PC and printed to provide a structure for recording the outcomes of the discussion

Reflexive Practice Angela Mary Lisle, 2010-07-06 At the heart of this book is the notion of reflexive practice as a meta cognitive self reflexive learning style for personal and professional development Reflexive practice is covered in a multidimensional way It is examined as part of the personal development of a student as personal development of the educator and as a thinking style of the individual in the agency structure dialectic of the global post modern human condition and the place of early childhood education if not education per se within that international contextual framework In addition reflexive practice is examined as a phenomenon in itself as a behaviour emergent of biology Piagetian genetic epistemology within the psychophysical social context of the Marxian Vygotskian historical materialist dialectic It takes an interactionist stance that is the view that ontogenetic development is an outcome of nature and nurture Thus its discourse is mainly psychological with input from other disciplines where there is overlap of concepts or concerns with theoretical insights Its historical roots start from the enlightenment philosophy through to postmodern philosophy culminating into psychophysics The philosophy of methodology for example of reflexive practice is examined from the critical theory of Marx and the use of dialectics manifest within post modernity as the reflexive turn Both Schns notion of reflexive practice as a critical conversation with the situation used in education and by psychologists within social work and counselling are examined The neuropsychology of reflexive practice is also examined and theorised as the psychophysics of brain mind The psychophysics of brain mind is in addition examined in the way it connects to learning style discourses such as the visual auditory and kinaesthetic modalities the brain exuberates These learning styles coalesce within the active learning approach the Marxian

Vygotskian method of learning A secondary thread that runs through the chapters is the notion of dialectic The individual identity is woven with the richness senses bring and values that emotions weave with the evolving world as the agency structure dialectic of development continues its journey Thus reflexive practice as a cycle of learning that converts into development and that is the basis for the development of identity the ontogenetic development of the individual is examined on several plains For example what is the child's site of negotiation within the everyday postmodern world or the student's site of negotiation within this rich construal of discourses and how are the professional and personal juxtaposed compromised and or resolved Reflexive practice as a critique of practice and search for truths within one's social context is catalyst for agency and truth of one's real place within the human condition to bring about emancipation Identity formation as a social psychological phenomenon is political as well as cultural and geographically located In terms of polity does parliament stand as guardian to practices within education and social welfare or is it but one influence inside the elaborate arena of negotiation In the present economic climate as western societies embrace their margins the bounded nations and otherness twinned sites of local and local with global changes of emergencies bubble up in a glowing spectra the UK is but one physicality of many as all that is solid melts into air Marx Economic 1890 The final encounter may well be one of total eclipse or a unified glorification as global capitalism struggles for its feet hovering beneath its own carriage on a blanket of air without the support of the industrial base Money paper alone will not support the march of capitalist accumulation As inflation rises and gross national product falls mindful of the fact that debit accounts are debt in the guise of growth without anything but words on paper to support them
