**Revolution** KT McFarland, 2020-02-25 For decades KT McFarland has been one of the country's most prominent conservative foreign policy experts. She was part of the Trump Revolution from the beginning. As Trump's first Deputy National Security Advisor, she had a seat at the table for everything Trump's unconventional campaign and upset victory, his throw out the rule book, Trump Tower, Transition, the chaotic first months in the West Wing, the unusual events surrounding General Flynn's firing and the sprawling Mueller investigation. In *Revolution*, she walks the reader through the Washington Establishment's relentless efforts to destroy Trump populism and nationalism in order to keep their own hands on the levers of power. The Trump Revolution like the Reagan Revolution and all the anti Establishment political revolutions before it will ultimately prevail. It is this ability to reinvent ourselves not just as individuals but as a society that lies at the heart of American Exceptionalism. When McFarland left the Trump Administration and Washington, she disappeared from public view and refused to discuss her experiences. Now for the first time, McFarland tells a story that reads more like a political thriller than a tour through this unique moment in history. Written with unusual candor with insights into Trump and his inner circle, Putin, Xi Jinping and Kim Jong un, McFarland's book is destined to become a classic. If you only read one book about the Age of Trump, make it *Revolution*. Trump, Washington and We the People
