The Burroughs Cyclopædia Clark A. Brady,2024-10-14 Edgar Rice Burroughs was not satisfied with creating characters and events within the world that we know instead he created whole new worlds for histories and he filled them with peoples languages cities wars plants machines and monsters that were believable to the reader yet still alien and fantastic enough to thrill and delight From A Kor the keeper of the Towers of Jetan in Manator through Zytheb one of the priests of Brulor in Ashair this is a comprehensive reference to the fantastic worlds of Burroughs Each entry provides a complete definition along with a reference to the book in which the entry appeared For terms the language either actual e g Latin and French or Burroughs created e g The Tongue of the Great Ape or Pal ul don from which it was derived is given **The McGurk**

Universe K.J. Donnelly,2023-01-01 This book reconsiders audiovisual culture through a focus on human perception with recourse to ideas derived from recent neuroscience It proceeds from the assumption that rather than simply working on a straightforward cognitive level audiovisual culture also functions more fundamentally on a physiological level directly exploiting precise aspects of human perception Vision and hearing are unified in a merged signal in the brain through being processed in the same areas This is illustrated by the startling McGurk Effect whereby the perception of spoken sound is changed by its accompanying image and counterpart effects which demonstrate that what we see is affected by different sounds accompanying sounds This blending of sound and images into a whole has become a universal aspect of culture not only evident in films and television but also in video games and short Internet clips Indeed this aesthetic formation has become the dominant of this period The McGurk Universe attends to how audiovisual culture engages with and mediates between physiological and psychological levels *Great Movie Serials Cb* Jim Harmon,Donald F.
