Smart Parts Manual:

AM Envelope Holger Strauss, 2013-01-29 This book shows the potential of Additive Manufacturing AM for the development of building envelopes AM will change the way of designing facades how we engineer and produce them To achieve today's demands from those future envelopes we have to find new solutions The term AM Envelope Additive Manufacturing Envelope describes the transfer of this technology to the building envelope Additive Fabrication is a building block that aids in developing the building envelope from a mere space enclosure to a dynamic building envelope AM offers the opportunity to manufacture facades just in time It is no longer necessary to store or produce large numbers of parts in advance Initial investment for tooling can be avoided as design improvements can be realized within the dataset of the AM part AM is based on tool less production all parts can be further developed with every new generation The basic principle of AM opens a fascinating new world of engineering no matter what applications can be found to design for function rather to design for production turns our way of engineering of the last century upside down A collection of AM applications therefore offers the outlook to our built future in combination with the acquired knowledge Engineering Documentation Control / Configuration Management Standards Manual Frank B.
