First, he made his main character in the play also be the narrator. In The Glass Menagerie, Tom Winnfield is both the main character and the narrator because it is his memory and told from his point of view. Also, he eliminated the use of props in some scenes. Williams believed props were a distraction and taking them away would help the audience focus on character development and plot. Tennessee Williams also used a screen device. The screen device displayed several words he would want the audience to recognize to guide them to think or feel a certain way.

Lastly, he dimmed the lighting to create a hazy look. This lighting effect would help the audience remember the play was from memory. Death of a Salesman Techniques to distinguish past from present/reality from illusion 1. Stage Directions/ Setting 2. Character's App

Metropolitan Desegregation Robert Green, 2013-11-11 Most of the findings in this book are based on the work of a team of researchers from Urban Affairs Programs at Michigan State University From 1976 to 1981 the team observed the progress of school desegregation in metropolitan Wilmington Delaware which encompasses New Castle County The project was made possible by a grant from the Rockefeller Foundation Division of Social Sciences Metropolitan desegregation is a strategy deserving of national attention because this country's black population has become increasingly concentrated within central cities Desegregation solutions must be found that

encompass America's white suburbs as well as its urban areas. In a 1977 statement the U.S. Commission on Civil Rights called metropolitan school desegregation the last frontier to be crossed in the long judicial effort to make equal educational opportunity a living reality. Moreover, the National Task Force on Desegregation Strategies concluded in 1979. The simple demographic fact is that many large city school districts cannot desegregate by themselves. For children in such districts the best hope for attending a desegregated school lies in the implementation of metropolitan desegregation strategies, i.e. desegregation plans which do not stop at the city line but rather encompass at least some of the surrounding suburban areas.

p. 1 The Michigan State University research team began its investigation in New Castle County, Delaware, after a three-judge federal district court ruled that area schools were illegally segregated between districts. **2015** Li Yuming, Li Wei, 2021-01-18.
