American aircraft carrier it was strong enough to take more aggressive actions against the Japanese and these are described in vivid detail Charles Stephenson's authoritative study should appeal to readers who have a special interest in the war with Japan in naval history more generally and Royal Navy in particular Praise for *The Eastern Fleet and the Indian Ocean 1942-1944* This meticulously researched outstandingly clear well written and absorbing account is long overdue and will most likely become a standard work The text is most helpfully supported by over 80 pages of detailed end notes referenced to each chapter and a detailed index This is not only a book for naval historians but also for anyone with an interest in the War in the Indian Ocean region Highly recommended Military Historical Society I enjoyed this book it gives us an account of an often neglected part of the war at sea and of the achievements of Admiral Somerville who kept his fleet intact in the face of a potentially overwhelming opponent then was willing to acknowledge that his fleet needed to improve massively before it could take on the Japanese Dr John Rickard author and webmaster of the Military History Encyclopedia on the Web [The Untold Story of Zama Zama Miners in South Africa](#) Vidette Bester, 2025-04-30 This book results from a decade of in depth research on the complexities of Zama Zama mining in South Africa which has become a pressing issue of late It critiques the overly simplistic portrayal of the miners negatively and as illegal immigrants Through a sociological lens this book explores the broader socio economic conditions the profound impact of South Africa's mining history particularly the migrant labor system on today's Zama Zama miners and the role of women in the sector This book is not just about mining it interrogates issues around language poverty and power It challenges dominant societal narratives and examines how labels can further marginalize vulnerable groups Inspired by the works of Pierre Bourdieu and Michel Foucault on classification and language the book questions who holds the power to label and shape mainstream discourses Amplifying the voices of the Zama Zamas themselves the book transforms the conversation around Zama Zama mining in South Africa and beyond providing fresh insights into this complex and marginalized sector This book is more than an original and insightful study on informal mining it offers practical initiatives for businesses government and civil society to engage with and address this marginalized sector more sustainably **Contemporary Intelligence in Africa** Tshepo Gwatiwa, 2024-08-08 The edited volume examines contemporary intelligence and tradecraft in Africa The work offers a timely and empirically grounded account of African intelligence It provides a multi contributor narrative that explains contemporary dynamics without discounting historical and external influences as well as explaining systemic dynamics borne by African agency The volume features chapters on different issues and themes in intelligence studies which include but are not limited to intelligence politicization covert operations and subversion during political transitions institutionalizing intelligence in post conflict states intelligence and counterterrorism financial intelligence and complex crimes intelligence professionalization media and intelligence intelligence humanization environmental intelligence and others The volume is geographically representative and features case studies from the five regions of Africa North Africa the Maghreb East Africa or Horn of Central Africa West Africa and
