China's Air Power and Maritime Strategies Towards the Indian Ocean Region Joshy M. Paul, 2025-02-03 This book examines China s naval and airpower strategic direction towards the Indian Ocean region It discusses China s military modernization program along with naval and airpower capabilities including expeditionary nature It analyses China s attempt to gain a strategic dominance in the IOR by means of investments and trade with the littoral countries military diplomatic relationship with friendly countries permanent presence of naval systems in the Indian Ocean and delivering public goods throughout the region A comparative

analysis of People's Liberation Army Air Force PLAAF expeditionary capabilities and Indian Air Force's IAF deterrence mechanisms is also included. Print edition not for sale in South Asia, India, Sri Lanka, Nepal, Bangladesh, Pakistan, and Bhutan.

World War II in Europe David T. Zabecki, 2015-05-01 World War II defined the 20th century and shaped many events from the decolonization of Africa to the rise and fall of the Berlin Wall. This encyclopedia offers a focused overview of this complex and volatile era, the circumstances that led up to war, the underlying causes, its unfolding, and consequences. Organized for quick and precise access, more than 1300 entries by 150 experts are arranged in six sections for easy reference and consultation. All the key ideas, events, actions, weapons, individuals, and organizations that played vital roles in the war are covered, from the Axis Pact to the Arab League, from the OSS to the Africa Corps, from the Chetniks to the Jedburghs, from the battle of Kursk to Operation Mincemeat, from Bill Donovan to Otto Skorzeny, from Gestapo to SMERSH, from Georgi Zhukov to Jean Leclerc, from the 88 gun to the Norden Bombsight. Covers important neglected subjects. The Encyclopedia puts special emphasis on the often neglected operations in Eastern Europe and Russia. A key section inspects and rates all the major weapons with handy tables for easy comparison. And in recognition of the first large-scale participation of women in the war, the volume thoroughly documents their individual and unit contributions to the Allied effort. Finally, the encyclopedia discusses battlefield realities that explain, for example, why the airborne drops at Normandy succeeded and the ones at Arnheim failed. A bibliography, glossary, maps, photographs, and weapons and data tables enhance the coverage. Also includes 16 maps.

Guns & Roses: Comparative Civil-Military Relations in the Changing Security Environment Steven Ratuva, Radomir Compel, Sergio Aguilar, 2019-01-04 This edited volume provides a critical and comparative discussion of the changing synergy between the military and society in the dramatically transforming global security climate, drawing on examples from the Asian Pacific, African, Middle Eastern, European, and South American regions. The book is interdisciplinary and covers wide-ranging issues relating to civil-military relations, democratization, regional security, ethnicity, peace building, and peace keeping, civilian oversight, internal repression, gender, regime change, and civil society.

The Statesman's Yearbook 2024 Palgrave Macmillan, 2024-01-03 Now in its 160th edition, *The Statesman's Yearbook* continues to be the reference work of choice for accurate and reliable information on every country in the world. Covering political, economic, social, and cultural aspects, the Yearbook is also available online for subscribing institutions.

Global Challenges in Maritime Security Lisa Otto, 2020-04-21 From pirates to smugglers, migrants to hackers, from stolen fish to smuggled drugs, the sea is becoming a place of increasing importance on the global agenda as criminals use it as a theatre to conduct their crimes unfettered. This volume sets out to provide an introduction to the key issues of pertinence in Maritime Security today. It demonstrates why the sea is a space of great strategic importance and how threats to security at sea have a real impact for people around the world. It examines an array of challenges and threats to security playing out at sea, including illegal, unreported, and unregulated fishing, irregular migration, piracy, smuggling of illicit goods, and cyber security, while also looking

at some of the mechanism and role players involved in addressing these perils Each chapter provides an overview of the issue it discusses and provides a brief case study to illustrate how this issue is playing out in real life This book thus allows readers an insight into this evolving multidisciplinary field of study As such it makes for an informative read for academics and practitioners alike as well as policymakers and students offering a well rounded introduction of the main issues in current Maritime Security

South Africa's Post-Apartheid Military Lindy Heinecken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security political and social environment since 1994 In South Africa's changed political state how has civilian control of the military been implemented and what does this mean for defence in a democracy This book presents an overview of the security environment how the mission focus of the military has changed and the implications for force procurement force preparation force employment and force sustainability The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force the effect of affirmative action on meritocracy recruitment and retention military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment gender equality and mainstreaming the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged HIV AIDS and the consequences this holds for the military in terms of its operational effectiveness In closing the author highlights key events that have caused the SANDF to become lost in transition and transformation spelling out some lessons learned The conclusions she draws are pertinent for the future of defence security and civil military relations of countries around the world

Smart, Sustainable Manufacturing in an Ever-Changing World Konrad von Leipzig, Natasha Sacks, Michelle McClelland, 2023-03-03 This book presents recent developments research results and industrial experience to increase the knowledge base of academics and industry In a small world where trade is the new global driving force conquering countries and continents alike international competitiveness is becoming the ultimate challenge It requires high quality products manufactured with state of the art technologies at low cost under the assumption of highly efficient operations management as well as clear corporate goals and strategy This in turn is based on improved engineering training and education relevant applied research and an active interaction between academia and industry

Catching Thunder Eskil Engdal, Kjetil Sæter, 2018-03-15 December 2014 In the forbidding waters off Antarctica Captain Hammarstedt of the Bob Barker sets off on a voyage unlike any seen before Across ten thousand miles of hazardous seas Hammarstedt's crew will relentlessly pursue the Thunder an infamous illegal fishing ship for what will become the longest chase in maritime history Wanted by Interpol the Thunder has for years evaded justice hunting endangered species and accumulating millions in profits The authors follow this incredible expedition from the beginning But even as seasoned journalists they cannot anticipate what the chase will uncover as the wake of the Thunder leads them on the trail of criminal kingpins rampant corruption modern slavery and an international community content to turn a blind eye Very soon catching Thunder becomes not only a chase but a pursuit of

the truth itself and a symbolic race to preserve the well being of our planet A Scandinavian bestseller *Catching Thunder* is a remarkable true story of courage and perseverance and a wake up call to act against the destruction of our environments

Capacity Building for Maritime Security Christian Bueger,Timothy Edmunds,Robert McCabe,2020-10-09 This book studies recent attempts to restructure maritime security sectors through capacity building It innovates both theoretically and empirically It proposes a new framework for understanding maritime capacity building drawing on work in peacebuilding and security sector reform The framework is then applied across empirical case studies from the Western Indian Ocean WIO region written by scholars from the Global South The WIO region is a paradigmatic case to study maritime security and capacity building in action Countries in the region face the full gamut of maritime security challenges while their indigenous capacities to deal with these are often weak In consequence the region functions as an engine of innovation for maritime capacity building more widely The lessons and best practices from the region have importance consequences for addressing maritime security across the globe

IAEG/AEG Annual Meeting Proceedings, San Francisco, California, 2018 - Volume 5 Abdul Shakoor,Kerry Cato,2018-08-30 This book is one out of six IAEG XIII Congress and AEG 61st Annual Meeting proceeding volumes and deals with topics related to geologic hazards such as earthquakes land subsidence coastal hazards and the emergency response The theme of the IAEG AEG Meeting held in San Francisco from September 17 21 2018 is Engineering Geology for a Sustainable World The meeting proceedings analyze the dynamic role of engineering geology in our changing world The meeting topics and subject areas of the six volumes are Slope Stability Case Histories Landslide Mapping Emerging Technologies Geotechnical and Environmental Site Characterization Mining Aggregates Karst Dams Tunnels Groundwater Resources Climate Change Geologic Hazards Earthquakes Land Subsidence Coastal Hazards and Emergency Response and Advances in Engineering Geology Education Soil and Rock Properties Modeling

Space Resource Utilization: A View from an Emerging Space Faring Nation Annette Froehlich,2018-01-10 The book speaks to the need for a regulatory framework with regards to space resource utilization In doing so significant elements of the subject matter have been explored taking into account the different phases of a space mission and the perspectives of the various actors and participants in the space arena The book tackles the subject matter from a number of angles An analysis of the current national and international governance frameworks is performed with regards to resource extraction and utilization in space The view of established and emerging space nations is analyzed next specifically with extraction and utilization in mind and in light of the new United State US Commercial Space Launch Competitiveness Act CSLCA of 2015 A brief analysis of the various budgets allocated to space exploration is given

Two Navies Divided Brian Lavery,2025-04-22 The title is derived from George Bernard Shaw s comment that England and America are two countries divided by a common language It is not intended to imply that the two navies were seriously at odds with one another but rather to suggest as in the case of language that common roots and usages varied significantly And the Second World War is a pertinent moment for

comparison They fought on the same side against a common enemy for nearly four years but Britain fought the war for the survival of itself and its empire though in the long term it failed with the latter while the American government fought to maintain its influence through the balance of power its people fought for revenge for Pearl Harbor and out of a sense of justice In this new book Brian Lavery describes and analyzes the differences and similarities between the two navies and in doing so sheds fascinating light on how the naval war was fought For example both navies had spectacular failures after entering the war the Royal Navy off Norway the USN at Pearl Harbor and Savo Island Paradoxically both commenced the war with quite amateur performances by professional navies and ended with highly skilled performances by largely amateur manned forces The training systems for regular officers had flaws in both countries In Britain entry was largely dependent on family income in America on political influence But American officers probably had a broader perspective by the time they entered active service The book covers ships and weapons systems for instance the British used too many gun types in the 4 to 6in range while the Americans concentrated on the well designed 5in And the author describes conditions onboard ships British vessels were awash with alcohol which had its attractions for Americans when alongside the Americans offered ice cream in return These examples represent only a tiny proportion of the subjects covered in this stimulating analysis Aviation the marines of both navies anti submarine and mine warfare uniforms propulsion systems shipbuilding and building programs commanders and national leaders ratings and officers ship design geographical environments naval bases hammocks and bunks the deployment of women these are among the myriad big and small themes that will open the eyes of naval historians and enthusiasts and show anyone with an interest in the Second World War how these two great allies came together to defeat the Axis forces

Reforming Civil-Military Relations in New Democracies Aurel Croissant, David Kuehn, 2017-03-20 This book addresses the challenge of reforming defense and military policy making in newly democratized nations By tracing the development of civil military relations in various new democracies from a comparative perspective it links two bodies of scholarship that thus far have remained largely separate the study of emerging or failed civilian control over armed forces on the one hand and work on the roots and causes of military effectiveness to guarantee the protection and security of citizens on the other The empirical and theoretical findings presented here will appeal to scholars of civil military relations democratization and security issues as well as to defense policy makers

ICMLG 2017 5th International Conference on Management Leadership and Governance Dr Thabang Mokoteli, 2017-03 **ICCWS 2017 12th International Conference on Cyber Warfare and Security** Dr. Robert F. Mills ,Dr. Juan Lopez Jr, 2017 **Naval Powers in the Indian Ocean and the Western Pacific** Howard M. Hensel, Amit Gupta, 2018-05-11 A vital component of the interdependent global economy maritime transit routes are nowhere more critical than those traversing the Indian Ocean and the Western Pacific Previously areas of the Indian Ocean and Western Pacific have been viewed as separate and discrete political economic and military regions In recent years however a variety of economic political and military forces have

created a new understanding of these maritime expanses as one zone of global interaction This book complements the material presented in its companion volume Maritime Security in the Indian Ocean and the Western Pacific by analysing the perceptions interests objectives maritime capabilities and policies of the major maritime powers operating in the Indian Ocean and the Western Pacific In addition the book also assesses the contemporary maritime challenges and opportunities that confront the global community within what is rapidly becoming recognised as an integrated zone of global interaction A valuable study for researchers and policymakers working in the fields of maritime security military security and peace studies conflict resolution and Asian affairs **Annual Report** South Africa. Department of Defence,1997
