Africa ,2000 Vols for 1967 70 include as a section Who s who of Rhodesia Mauritius Central and East Africa **Corruption**

Risks in Nigeria'S Defence and Security Establishments Jude Uddoh Ph.D., 2016-02-05 This work attempts to assess corruption risks in five key areas of Nigerias defence and security establishments namely political financial personnel operations and procurement Using a simple and straightforward question and answer format the assessment draws from interviews with key players in the industry as well as from secondary sources The scope of the work includes the last few years of President Goodluck Jonathans administration and the threshold of the administration of President Muhammadu Buharia truly epochal period in the history of Nigerias fight against corruption but also reflects policy gaps inherent in the transition in government The work contributes to an area of literature which is both scanty and characterized by much secrecy It is hoped therefore that this contribution will not only stimulate more frank and open discussion on the subject of corruption risks in Nigerias defence and security sector but would also act as both a template and benchmark on which policy makers can embark on genuine and meaningful reforms **Truth** ,1901 **Education at War** Arshad Imtiaz Ali, 2018-04-10 Education at War The Fight for Students of Color in America s Public Schools attempts to shape educational research and practice to more explicitly consider the relationship between education capitalism and war and more

specifically its impact on students of color The authors as a whole contend that the contemporary specter of war has become a central way that racism and materialism become manifested and practiced within education In particular this collection asserts that the contemporary neoliberal characterization of education and school based reform is situated within the global political economy that has facilitated a growth in the prison and military industrial complex and simultaneous divestment in education domestically within the U S Education at War attempts to make research relevant by bringing the tensions within young people s lives to the fore The heavy shadow cast by recent U S led wars re organizes the sites of learning and teaching nationally as well as differentially within specific sites and upon particular communities Nonetheless the examination of this context is not enough Rather we consider how such a contemporary context can facilitate educational spaces for communities and youth to grow their vision for a different and hopefully a more humanizing future Thus the book contributors will collectively explore how resistance can produce the opportunity for rich diverse and transformative learning for marginalized students and communities The lives of People of Color are the forefront of Education at War The Fight for Students of Color in America s Public Schools Whereas there are many attempts to theorize about the global implications of war less attention is paid to the ways that war shapes young lives in the U S particularly in an educational context The book addresses the absence of youth centered discussions regarding education during a political context of neoliberalism and war and provides important perspectives on which to ground critical discussions among students and families education scholars and practitioners and policymakers
