Quantity Surveying Colin Dent,1970 **Set-off Defences in International Commercial Arbitration** Christiana Fountoulakis,2010-12-22 The book deals with set off in international arbitration proceedings In these proceedings set off is frequently the tool relied upon to resist a claim At the same time the legal intricacies make it hard to use The first part of the book provides a survey of set off including its definition significance and functions The second part offers a thorough comparative analysis of selected European laws of set off and reveals the dramatic differences between them The third and last part of the book deals with the problematic consequences of these differences and shows the limits and the inadequacy of the traditional choice of law doctrines While demonstrating how to overcome the practical hurdles of the present situation the third part also offers normative alternatives that should provide significant help in the adjudication of commercial disputes This title is included in Bloomsbury Professional s International Arbitration online service **Mining and Scientific Press** ,1894 Passive Restraints [bibliography].
