O'Connell,2012 If These Walls Could Talk explores the theological and social significance of Philadelphias community muralism movement a groundswell of public art that is transforming the City of Brotherly Love into the Mural Capital of the World It calls attention to the narratives behind some of the citys 2 800 wall sized canvases in ghettos and on schools on mosques and in jails in courthouses and along overpasses in order to illustrate the way in which the arts can help us to travel the emotional intellectual and relational distance necessary to arrive at creative responses to the seemingly inescapable problems of urban poverty **Bringing Talk to Life: Thinking Through Dialogue in The Classroom** Paul Gurton,Meghan Tipping,2024-12-20 Do you want to encourage purposeful talk between students in your classroom but feel you do not have the time or the permission Do you wish you had more opportunity to listen to your students and include discussion of pressing and controversial issues in their lives and society today in your curriculum Amidst rising recognition of how being articulate improves life chances this book takes a look at these questions outlining an alternative approach to curriculum and pedagogy Bringing Talk to Life is firmly grounded in classroom experience and research evidence and explores how a dialogic approach to teaching can improve students confidence and agency and restore teachers professional judgement It outlines the social and linguistic barriers some students find in accessing knowledge through the school curriculum and identifies ways that teachers can help them become more confident and articulate by modelling different behavioural norms and introducing concept vocabulary in an accessible way Using transcripts of classroom dialogues teachers plans and examples of students work chapters show by contrast that a talk focussed enquiry curriculum can free up teachers and pupils to explore ideas together reigniting curiosity Examples of this dialogic approach come from primary classrooms where Philosophy for Children P4C is adapted to suit a school s aims and curriculum In addition there are chapters on how talk is used in further and higher education to develop students critical thinking skills Designed to stimulate thinking and debate and restore teachers confidence in their own professional judgement this book is intended for those training to be teachers It will also be of interest for schools that are keen to learn how to include more talk in their curriculum and experienced practitioners who feel that there is another way to plan and teach **Art and Gentrification in the Changing Neoliberal Landscape** Tijen Tunali,2021-05-30 Art and Gentrification in the Changing Neoliberal Landscape brings together various disciplinary perspectives and diverse theories on art s dialectical and evolving relationship with urban regeneration processes It engages in the accumulated discussions on art s role in gentrification yet

changes the focus to the growing phenomenon of artistic protests and resistance in the gentrified neighborhoods Since the 1980s art and artists roles in gentrification have been at the forefront of urban geography research in the subjects of housing regeneration displacement and new urban planning In these accounts the artists have been noted to contribute at all stages of gentrification from triggering it to eventually being displaced by it themselves The current presence of art in our neoliberal urban spaces illustrates the constant negotiation between power and resistance And there is a growing need to recognize art's shifting and conflicting relationship with gentrification The chapters presented here share a common thesis that the aesthetic reconfiguration of the neoliberal city does not only allow uneven and exclusionary urban redevelopment strategies but also facilitates the growth of anti gentrification resistance The book will be of interest to scholars working in art history urban cultures cultural geography and urban studies as well as contemporary art practitioners and policymakers

Authentic™ Sarah Banet-Weiser, 2012-11-26 A stimulating smart book on what it means to live in a brand culture Brands are everywhere Branding is central to political campaigns and political protest movements the alchemy of social media and self branding creates overnight celebrities the self proclaimed greening of institutions and merchant goods is nearly universal But while

the practice of branding is typically understood as a tool of marketing a method of attaching social meaning to a commodity as a way to make it more personally resonant with consumers Sarah Banet Weiser argues that in the contemporary era brands are about culture as much as they are about economics That in fact we live in a brand culture Authentic™ maintains that branding has extended beyond a business model to become both reliant on and reflective of our most basic social and cultural relations Further these types of brand relationships have become cultural contexts for everyday living individual identity and personal relationships what Banet Weiser refers to as brand cultures Distinct brand cultures that at times overlap and compete with each other are taken up in each chapter the normalization of a feminized self brand in social media the brand culture of street art in urban spaces religious brand cultures such as New Age Spirituality and Prosperity Christianity and the culture of green branding and shopping for change In a culture where graffiti artists loan their visions to both subway walls and department stores buying a cup of fair trade coffee is a political statement and religion is mass marketed on t shirts Banet Weiser questions the distinction between what we understand as the authentic and branding practices But brand cultures are also contradictory and potentially rife with unexpected possibilities leading Authentic™ to articulate a politics of ambivalence creating a lens through which we can see potential political possibilities within the new consumerism
