*Empire* Takashi Fujitani,2013-07-20 Race for Empire offers a profound and challenging reinterpretation of nationalism racism and wartime mobilization during the Asia Pacific war In parallel case studies of Japanese Americans mobilized to serve in the United States Army and of Koreans recruited or drafted into the Japanese military T Fujitani examines the U S and Japanese empires as they struggled to manage racialized populations while waging total war Fujitani probes governmental policies and analyzes representations of these soldiers on film in literature and in archival documents to reveal how characteristics of racism nationalism capitalism gender politics and the family changed on both sides He demonstrates

that the United States and Japan became increasingly alike over the course of the war perhaps most tellingly in their common attempts to disavow racism even as they reproduced it in new ways and forms

**Modern Marine Internal Combustion Engines** Ievgen Bilousov, Mykola Bulgakov, Volodymyr Savchuk, 2020-06-30 This book offers a comprehensive and timely overview of internal combustion engines for use in marine environments It reviews the development of modern four stroke marine engines gas and gas diesel engines and low speed two stroke crosshead engines describing their application areas and providing readers with a useful snapshot of their technical features e g their dimensions weights cylinder arrangements cylinder capabilities rotation speeds and exhaust gas temperatures For each marine engine information is provided on the manufacturer historical background development and technical characteristics of the manufacturer s most popular models and detailed drawings of the engine depicting its main design features This book offers a unique self contained reference guide for engineers and professionals involved in shipbuilding At the same time it is intended to support students at maritime academies and university students in naval architecture marine engineering with their design projects at both master and graduate levels thus filling an important gap in the literature

[Internal Migration in the Developed World](#) Tony Champion, Thomas Cooke, Ian Shuttleworth, 2017-08-16 The frequency with which people move home has important implications for national economic performance and the well being of individuals and families Much contemporary social and migration theory posits that the world is becoming more mobile leading to the recent mobilities turn within the

social sciences Yet there is mounting evidence to suggest that this may not be true of all types of mobility nor apply equally to all geographical contexts For example it is now clear that internal migration rates have been falling in the USA since at least the 1980s To what extent might this trend be true of other developed countries Drawing on detailed empirical literature Internal Migration in the Developed World examines the long term trends in internal migration in a variety of more advanced countries to explore the factors that underpin these changes Using case studies of the USA UK Australia Japan Sweden Germany and Italy this pioneering book presents a critical assessment of the extent to which global structural forces as opposed to national context influence internal migration in the Global North Internal Migration in the Developed World fills the void in this neglected aspect of migration studies and will appeal to a wide disciplinary audience of researchers and students working in Geography Migration Studies Population Studies and Development Studies     Catalog of Genera, Species, and Subordinate Taxa in the Orange Subfamily Aurantioideae (Rutaceae) J. B. Carpenter, United States. Agricultural Research Service. Crops Research Division, P. C. Reece, 1969     Books and Pamphlets, Including Serials and Contributions to Periodicals Library of Congress. Copyright Office, 1968     National Library of Medicine Current Catalog National Library of Medicine (U.S.), 1965     Studies in Musical Acoustics and Psychoacoustics Albrecht Schneider, 2016-12-26 This book comprises twelve articles which cover a range of topics from musical instrument acoustics to issues in psychoacoustics and sound perception as well as neuromusicology In addition to experimental methods and data acquisition modeling such as FEM or wave field synthesis and numerical simulation plays a central role in studies addressing sound production in musical instruments as well as interaction of radiated sound with the environment Some of the studies have a focus on psychoacoustic aspects in regard to virtual pitch and timbre as well as apparent source width for techniques such as stereo or ambisonics in music production Since musical acoustics imply subjects playing instruments or singing in order to produce sound according to musical structures this area is also covered including a study that presents an artificial intelligent agent capable to interact with a real analog player in musical genres such as traditional and free jazz     Ochoco National Forest (N.F.), Upper Beaver Vegetation Management Project , 2009
