Tao Te Ching is one of the world's oldest and most influential documents. Its view of the mind and its place in the world paradoxically simple and profound continue to perplex, excite and inspire today. The Tao Te Ching also known as The Tao and its Characteristics or The Book of Tao has traditionally been attributed to Lao Tzu, a Chinese philosopher of the 6th century BC. The ancient book's exact origins and authorship are still subject to debate including some wondering if it was written by a single author or is the accumulated wisdom of many. The text seeks a peeling away of artificial constraints of society and the mind in order to return to the natural balance of the Tao, the essence of all things. This is described as the way, an immersion in the present moment and a freedom from desire that liberates the self from purely selfish motivations, creating a balanced state of humble simplicity and peace of mind. Poetic and shot through with thought provoking paradox, the text invites absorption, consideration and interpretation. Ceaselessly influential across cultures and centuries, The Tao Te Ching has at one time or another impacted religious thought, political theory, philosophy and an array of artists working in everything from poetry to painting to music. Thousands of years old, the text and its message are truly timeless. With an eye-catching new cover and professionally typeset manuscript, this edition of The Tao Te Ching is both modern and readable. Lao Tzu Yuanxiang Xu, Yongjian Yin, 2007 *The Tao Te Ching* Lao Tze, 2012-10-26. The Tao Te Ching is a timeless, placeless work. This is a new version that brings out the potency, the freshness of the work and sets in it a new light by ridding the Tao Te Ching of the misleading hoary language of many of its translators and adapters. See the Tao as it was meant, new and current. **Lao-tzu and the Tao-te-ching** Livia Kohn, Michael LaFargue, 1998-03-19. CHOICE 1998 Outstanding Academic Books. Part One, Ancient Myths, discusses who Lao tzu was, how he developed into a god of religious Taoism, and how his divinity was represented in medieval Chinese sculpture. Part Two, Chinese Interpretations, discusses the role of the text in traditional China, studying the major commentaries by Wang Pi and He Shang, looking at about thirty commentaries and their philological and doctrinal interpretations, and examining the ritual uses of the text found in medieval Taoism. Part Three, Modern Readings, contains a critical discussion of the Tao te ching's reception in the West, a general analysis of its major doctrines, and a contemporary Chinese vision of its possible relevance for life today. Part Four, Critical Methods, presents recent findings on the Tao te ching's linguistic structure and probable date, a historical hermeneutic enquiry into its original meaning, and an evaluative guide to seventeen major English translations. **Tao Te Ching (Translated with Commentary by James Legge)** Lao Tzu, 2016-05.
