[Mobile Tech Report 2014](#) John R. Roberts, 2014-01-10 If you read technology news you'll notice it's not just a story of amazing new product introductions or even that plus copycat product introductions All the usual aspects of business are there fierce competition new contenders old survivors great ideas but business failures mediocre ideas that somehow seem to succeed and prosper As a reporter commentator and blogger on mobile technology I've collected what happened in the industry in 2013 and make predictions on what will and won't happen in 2014 You can read what did happen in the mobile technology in 2013 Often I deliver a comment with the news item and usually there is a link to the web page of the original announcement This way you can dive into any detail level you desire read my news feed for the overview or follow the related web link to the longer article History is moving so fast now that it is all recorded electronically but I'm surprised no one else has collected it and presented it for consideration Here is 2013 from the mobile technology industry for your consideration along with my own observations and opinions about where things are headed It's often overlooked that the technology industry is an industry By that I mean its main concerns are profit and growth As consumers we love the new products and unique abilities we are gaining from

technology but it is a business akin to any other trying to seduce us to pry money out of our wallets So I cover the horse race aspect of the business who s up who s down Is that changing Is that likely to change The longer implications of what the technology industry is doing are vast and social We are moving to an always on always connected society where we can communicate with someone instantly and find an answer to any question quickly The entire database of human knowledge is now available in the palm of your hand whenever you desire it Everything is there the good the bad right and wrong hate and love music and noise We are obsessed with technology not in and of itself but as a means to an end Technology is the means to satisfy our curiosity or even our desire for self expression We are taking photos machine gun style with our smartphones and choose the few to share As humans we are gathering ever more data about ourselves and sharing more about ourselves than we probably thought possible Bill Gates was once asked why the computer industry had generated so much improvement in its products over a relatively few years He gave some boring answer about Moore s Law but the real answer is that computers are in their teenage years They are growing and growing They will not always do so So too the technology industry is in a state of rapid change I see the shift to smaller devices as a new paradigm smashing some businesses and growing others into giants Their stories are here in the news In short here are predictions for what won t and will happen in 2014 for the mobile technology industry breakdowns of marketshare figures on the horse race aspect of the business chapters on Apple Samsung Google Microsoft Nokia Blackberry Amazon Yahoo news about social media giants Facebook Twitter Google LinkedIn Foursquare SnapChat and the carriers themselves Verizon AT T Sprint and T Mobile You can also review my 2013 mobile predictions and see my track record on predictions Finally there are some essays on how all this mobile tech is figuring into our lives I ve divided the news into the subjects it covers but also put in the appendix all the news as it came out in chronological ordering You can read the firehose of events in the appendix or just read about one topic at a time in the earlier chapters Table of Contents Preface Introduction Chapter 1 2014 Predictions Chapter 2 Mobile Marketshare Chapter 3 Apple Chapter 4 Samsung Chapter 5 Google Chapter 6 Microsoft Chapter 7 Nokia Chapter 8 Blackberry Chapter 9 Amazon Chapter 10 Social Media Chapter 11 Yahoo Chapter 12 Carriers Chapter 13 2013 Predictions Chapter 14 Essays Appendix 2015 Debbies Book 27th Edition EBOOK Debbie Hemela, 2015-03-01 2015 of Debbies Book 27th Edition Full Database EBOOK 5 ways to experience Debbies Book Physical book for users who want to hold it in their hands Printable book for users who want to print certain pages Tablet friendly eBook for users who love their iPads and eReaders Mobile App for iOS Android Devices Daily blog featuring vendors and news The book is organized by categories in alphabetical order Listings for Prop Houses and Costume Rental Houses are shortened to one or two lines to save space Their full contact information is located within the Prop House and Costume Rental Houses categories only *Power Metal* Vince Beiser, 2024-11-19 The powerful ways the metals we need to fuel technology and energy are spawning environmental havoc political upheaval and rising violence and how we can do better An Australian millionaire s plan to mine the ocean

floor Nigerian garbage pickers risking their lives to salvage e waste A Bill Gates backed entrepreneur harnessing AI to find metals in the Arctic These people and millions more are part of the intensifying competition to find and extract the minerals essential for two crucial technologies the internet and renewable energy In Power Metal Vince Beiser explores the Achilles heel of green power and digital technology that manufacturing computers cell phones electric cars and other technologies demand skyrocketing amounts of lithium copper cobalt and other materials Around the world businesses and governments are scrambling for new places and new ways to get those metals at enormous cost to people and the planet Beiser crisscrossed the world to talk to the people involved and report on the damage this race is inflicting the ways it could get worse and how we can minimize the damage Power Metal is a compelling glimpse into this disturbing yet potentially promising new world
