He had laid his jacket across the back of his chair and was wearing just a thin tank top that rippled with his muscles when he shifted. He was one of the ones with pure lust in his eyes and those eyes hadn't left me since I walked in the room. He seemed to want to do something and I kind of wanted him to do it whatever it was. The way he was looking at me sent little shivers right up and down my needy body. No, it wasn't. But I guess I shouldn't be surprised you haven't figured it out yet. What do you mean? I asked, now staring openly at the man to my right. He looked up and gave me a wink and I giggled a little nervously. It's a drug that makes people look and feel like you're looking and feeling right now. Horny, I asked before I could think to stop myself. He laughed. Exactly, sweet thing. Exactly. But don't you worry, we've got a good idea what to do about it. And the further she goes with this dangerous game, the more she finds she enjoys every bit of it. The mysterious biker she met on her hike has more games in store for her as they hit the road on the back of his motorcycle and get into some naughty mischief in the roughest areas that they travel. She's already been tied up, spanked, and ravaged. What else does this mysterious alpha male have in store for this good girl gone bad? This 7,000 word story is part of an ongoing series. Mature audiences for plenty of descriptive raunch and kink. EXCERPT: When I can turn off my rational brain and allow what feels good to be, it's much easier to live in the moment. When I live in the moment, it's much easier to tap into the sexy side of myself that I've never unleashed before. I looked him dead in his eyes past the worn blue jeans, the thick metal belt buckle, and impenetrable leather jacket, and spike necklace into his stern eyes, and I could tell that he was getting off on dominating me. And I was getting off on being dominated. I nodded my head fiercely, knowing there was no way that I'd be able to give him a real verbal response since my mouth was full of him.
