much has been said and written about coincidences there is a marked absence when it comes to the development of a comprehensive model that incorporates the many different ways in which they can be understood and explained One reason for this omission is undoubtedly the sharp divide that exists between those who find coincidences meaningful and those who do not with the result that the conclusions of the many books and articles on the subject have tended to fall into distinct camps **The Many Faces of Coincidence** attempts to remedy this impasse by proposing an inclusive categorisation for coincidences of all shapes and sizes At the same time some of the implications arising from the various explanations are explored including the possibility of an underlying unity of mind and matter constituting the ground of being **Absent**

Mother God of the West Neela Bhattacharya Saxena, 2015-12-15 This book about the missing Divine Feminine in Christianity and Judaism chronicles a personal as well as an academic quest of an Indian woman who grew up with Kali and myriad other goddesses It is born out of a women's studies course created and taught by the author called The Goddess in World Religions The book examines how the Divine Feminine was erased from the western consciousness and how it led to an exclusive spiritually patriarchal monotheism with serious consequences for both women's and men's psychological and spiritual identity While colonial proselytizing and patriarchal ways have denied the divinity inherent in the female of the species a recent upsurge of body centric practices like Yoga and innumerable books about old and new goddesses reveal a

deep seated mother hunger in the western consciousness Written from a practicing Hindu Buddhist perspective this book looks at the curious phenomenon called the Black Madonna that appears in Europe and also examines mystical figures like Shekhinah in Jewish mysticism People interested in symbols of the goddess feminist theologians and scholars interested in the absence of goddesses in monotheisms may find this book s perspective and insights provocative Atlantis Rising Magazine - 111 May/June 2015 J. A New Approach to Synchronicity Lance Storm, 2025-03-26 This book offers an up to date handling of C G Jung s Theory of Synchronicity and the more mainstream paranormal phenomena known as extra sensory perception ESP and psychokinesis PK collectively referred to as psi Author Lance Storm re works various aspects of synchronicity traditionally marginalized by parapsychologists to bring about a paradigm shift in the field Most often seen as fundamentally different the book draws parallels between psi and synchronicity and equates the two arguing that psi was all along a form of synchronicity just as Jung had anticipated To achieve this Storm necessarily modifies both the parapsychologist s view about psi and Jung s views about synchronicity enabling a satisfactory merger of the two paranormal phenomena Based on rigorous scientific research and written in an easy to understand style this book is an important resource for specialists such as anomalistic psychologists parapsychologists philosophers paranormalists and theologians

C. G. Jung in the Humanities Susan Rowland, 2019-09-23 This book demonstrates for the first time the significance of Jung s work to the humanities and to those areas where the humanities and sciences share borders More radically it shows that Jung was a writer of myth alchemy narrative and poetics as well as on them Jung s core concepts are introduced their ongoing relevance is championed The book also addresses Jung s sometimes questionable judgment on politics and gender and previews contemporary extensions of Jungian theory By privileging the creative psyche and exploring the connections between individual natural environment and social psychological collective Jung anticipates the new holism offering the promise of reconciling the sciences with the arts humanity with nature

Psyche and Matter Marie-Louise von Franz, 2001-05-01 A leading expert on the teachings of C G Jung explores the connection between mind and matter drawing on classic Jungian themes like archetypes dreams synchronicity and more Twelve essays by the distinguished analyst Marie Louise von Franz five of them appearing in English for the first time discuss synchronicity number and time and contemporary areas of rapprochement between the natural sciences and analytical psychology with regard to the relationship between mind and matter This last question is among the most crucial today for fields as varied as microphysics psychosomatic medicine biology quantum physics and depth psychology

The Structure and Dynamics of the Psyche C. G. Jung, 2014-12-18 The Structure and Dynamics of the Psyche first appeared in the Collected Works in 1960

In this new edition bibliographical citations and entries have been revised in the light of subsequent publications in the Collected Works and essential corrections have been made The book traces an important line of development in Jung's thought from 1912 onwards The earliest of the papers elaborates Freud's concept of sexual libido into that of psychic energy In those that follow we see how Jung discarding one by one the traditional philosophical hypotheses gradually arrived at a concept which is even more controversial than psychic energy was in its day DDL namely psychic reality The book contains the first mention of the archetype in Jung's writings as well as his later views on its nature There is also a valuable account of the therapeutic uses of active imagination first described in an essay written in 1916 **El arte del recuerdo** Stefano

Varese, 2021-06-28 Existen muchas maneras de hacer que las memorias sean menos interesantes que la persona que las escribe No es este el caso Stefano es entre muchas otras cosas un notable escritor El arte del recuerdo es una gran ventana a sus mundos Charles Walker Un despliegue continuo y apasionante as podemos leer la vida de Stefano Varese 1939 el prestigioso antropólogo y activista italo-peruano Stefano nace en Italia en medio de la Segunda Guerra Mundial y de fisuras familiares que como paradoja multiplican sus universos Llega a Lima en su adolescencia y su vida adulta se desdobra por lugares tan diversos como el Gran Pajonal California y Oaxaca Su contacto con la Amazona peruana le revela más que un objeto de estudio un mosaico de saberes alternativos que transforman la forma de vincularse con su propio ser Advertimos en esta evolución el cuestionamiento a su clase a su entorno familiar incluso a su formación académica Stefano nos hace testigos de experiencias que trascienden lo racional y de episodios que renuevan el amor y los conflictos en la familia que funda con Linda su esposa El arte del recuerdo no es una autobiografía sino como su autor prefiere describir un ejercicio de memorias un ejercicio parcial fragmentado donde participa también lo no dicho lo reprimido lo autocensurado Esta subjetividad traduce las vivencias de Stefano Varese en una obra que nos conmueve e interpela Songlines of the Soul Veronica

Goodchild, 2012-10-01 The title for this book comes from the ancient Aboriginal concept of song lines pathways to another world reached through dreamtime and visionary insight and encounters with the unknown realm of experience Veronica Goodchild addresses how dreams synchronicities UFO ET encounters Crop Circle mysteries and NDEs all point to the new unfolding vision of reality She draws on ancient mystery traditions to explore how this metamorphosis is already reflected cross culturally in Hopi Aztec Mayan Hindu Tibetan Maori Zulu Dogon and Egyptian cultures Songlines of the Soul proposes a new paradigm of reality a new worldview The signatures of this new reality are arising both in our own experiences and all around us if only we can stretch wide our stubbornly held perceptions of what is reality As we stand at a crucial turning point in our human history this book offers hope a call to awaken and expand our perceptions of the fundamental principles that orchestrate reality In an age when the answers offered by governments and traditional religion are no longer sufficient the quest for meaning must as it always has in the past arise first through visions dreams and journeys to other dimensions of consciousness **Synchronicity** C. coincidence of events extrasensory perception and similar phenomena Krátké dějiny (téměř) všeho paranormálního Terje G. Simonsen, 2021-01-01 Hledáte-li výerpy z vod do parapsychologické stránky tohoto fascinujícího a zrovňadného oboru, jmenovitě paranormální jevy, pak neexistuje lepší volba. Dean Radin, Ph.D., hlavní vědecký pracovník Institutu noetických věd IONS, překládá, kdybyste se dozvěděli, o kolik laureát Nobelovy ceny tvrdí, že telepatie je skutečně Kleopatřin ztracený palác byl objeven pomocí jasnovидnosti a americká armáda a CIA vedly po dvadesetiletý pionýrský program založený na paranormálních schopnostech. Kniha představuje nejpodrobnější parapsychologický průzkum, jak byl kdy proveden plně zbavěných předvídacích a známých myslitelů. Prezentovaný průzkum naznačuje, že paranormální jevy mohou být objektivně skutečnou úmožnou mentální komunikací prostřednictvím internetu, který nás všechny spojuje. The Alchemical Mercurius Mathew Mather, 2014-03-05 The figure of the alchemical Mercurius features ubiquitously and radically in Jung's later works but despite this there has been little research concerning Mercurius in Jungian studies to date. In this book Mathew Mather explores the figure of the alchemical Mercurius and contextualises and clarifies its significance in Jung's life and works. Placing the alchemical Mercurius as a central concern reveals a Jungian interpretation in which the grail legend, alchemy and precessional astrology as three thematic threads converge. In such a treatment Jung's belief in the dawning of a new platonism emerges as a central consideration and an esoteric perspective on Jung's life and works is brought more fully to light. Constructing a life myth interpretation. The book is comprised of three parts: Aurea Catena locating the figure of the alchemical Mercurius within the Western esoteric tradition; Daimonic Encounter the relevance of this figure in Jung's personal life; Magnum Opus Jung's portrayal of this figure in key texts such as Synchronicity, Aion, Mysterium Coniunctionis and Emma Jung and von Franz's The Grail Legend. The Alchemical Mercurius is a unique contribution to analytical psychology, substantially revealing esoteric Jung and providing valuable perspectives on the theme of his myth for our times. The book will appeal to researchers and academics in the field of analytical psychology as well as postgraduate students.

Историк науки в вихре событий. Том 3. Повесть о судьбе и случае Юрий Чайковский, 2024-05-14 **The Paradoxical Meeting of Depth Psychology and Physics** Robert S. Matthews, 2022-06-30 This book unites the worlds of physics and depth psychology through analysis of carefully selected existing and new dream materials. Their interpretation by Matthews provides fertile ground for the unifying of the extreme opposites of psyche and matter and forms a continuation of the deep dialogue between acclaimed psychologist Carl Jung and Nobel physicist Wolfgang Pauli. What emerges is an individuation process where inner and outer worlds are intertwined through a succession of dream images culminating with that of the ring in the mathematical function at the heart of quantum physics. This mysterious function unites wave and particle and symbolically carries the quality of paradox. The occurrence of the ring in Pauli's and the author's dreams suggests paradox is a necessary psychological state to experience a living union between psyche and matter. Analysis of accompanying materials further indicates the arising of a

new world view where inner and outer mind and matter may again be seen as a unified whole This book is an engaging read for academics and researchers in the field of Jungian psychology and will appeal to those interested in the novel application of quantum physics to philosophy psychology and spirituality **The Mystery of Transformation** Murray Stein, 2022-07-15

The transformation of personality is mysterious whether it comes about gradually or suddenly In part it is the result of the process of aging Life itself puts a person through a series of transformations similar to the moultings of insects and reptiles There are also rituals created by humans in their cultures that facilitate transformations to higher levels of identity and consciousness through instigating a process of spiritual death and rebirth into a greater sense of wholeness The essence of the process is alchemical and what controls it is mysterious lodged in the unconscious dynamics of the self The chapters in this book are attempts at exploring those dynamics while acknowledging that they will forever remain beyond our understanding a mystery This work consists of a series of probes into the mystery of the individuation process Central to the discussion are Jung's late writings on the alchemy of psychological transformation in the late stages of individuation
