Installation Tips

Mount Thermostat

Align the 4 tabs on the subbase with corresponding slots on the back of the thermostat, then push gently until the thermostat snaps in place.

Battery Installation

Battery installation is recommended even if thermostat is hardwired (C terminal connected). When thermostat is hardwired and batteries are installed, the thermostat will activate a compressor delay of 5 minutes when the thermostat detects a power outage from the hardwired power supply.

Insert 2 AA Alkaline Batteries (not included). High quality alkaline batteries are recommended.

Important: High quality alkaline batteries are recommended. Rechargeable batteries or low quality batteries do not guarantee a 1-year life span.

Simple operation: push the cover up and back off the battery door.

About The Badge

All of our thermostats use the same universal magnetic badge. Visit the company website to learn more about our free private label program.

Simply slide a standard size badge over the bottom edge of the badge. Gently turn the screwdriver counter clockwise. The badge is held on by a magnet on the wall on the battery door. The badge should pop out easily. Do not use force.

Use the brand on bottom edge
