The Three Cities Trilogy, Complete Emile Zola,2015-12-29 PREFACE BEFORE perusing this work it is as well that the reader should understand M Zola s aim in writing it and his views as distinct from those of his characters upon Lourdes its Grotto and its cures A short time before the book appeared M Zola was interviewed upon the subject by his friend and

biographer Mr Robert H Sherard to whom he spoke as follows Lourdes came to be written by mere accident In 1891 I happened to be travelling for my pleasure with my wife in the Basque country and by the Pyrenees and being in the neighbourhood of Lourdes included it in my tour I spent fifteen days there and was greatly struck by what I saw and it then occurred to me that there was material here for just the sort of novel that I like to write a novel in which great masses of men can be shown in motion un grand mouvement de foule a novel the subject of which stirred up my philosophical ideas It was too late then to study the question for I had visited Lourdes late in September and so had missed seeing the best pilgrimage which takes place in August under the direction of the Peres de la Misericorde of the Rue de l Assomption in Paris the National Pilgrimage as it is called These Fathers are very active enterprising men and have made a great success of this annual national pilgrimage Under their direction thirty thousand pilgrims are transported to Lourdes including over a thousand sick persons So in the following year I went in August and saw a national pilgrimage and followed it during the three days which it lasts in addition to the two days given to travelling After its departure I stayed on ten or twelve days working up the subject in every detail My book is the story of such a national pilgrimage and is accordingly the story of five days It is divided into five parts each of which parts is limited to one day There are from ninety to one hundred characters in the story sick persons pilgrims priests nuns hospitallers nurses and peasants and the book shows Lourdes under every aspect There are the piscinas the processions the Grotto the churches at night the people in the streets It is in one word Lourdes in its entirety In this canvas is worked out a very delicate central intrigue as in Dr Pascal and around this are many little stories or subsidiary plots There is the story of the sick person who gets well of the sick person who is not cured and so on The philosophical idea which pervades the whole book is the idea of human suffering the exhibition of the desperate and despairing sufferers who abandoned by science and by man address themselves to a higher Power in the hope of relief as where parents have a dearly loved daughter dying of consumption who has been given up and for whom nothing remains but death A sudden hope however breaks in upon them supposing that after all there should be a Power greater than that of man higher than that of science They will haste to try this last chance of safety It is the instinctive hankering after the lie which creates human credulity
