for New Construction process offering advanced techniques for estimating the actual costs in time and money for building green. It serves as an essential primer to price assessment strategies for high performance commercial and institutional projects which include office buildings, high rise residential buildings, government buildings, recreational facilities, manufacturing plants and laboratories. Written by an author with more than twenty years of green construction experience on more than 80 LEED registered or certified projects, the book provides real world case studies used to demonstrate the techniques and concepts revealed in the book, covers project documentation and provides strategies to help the reader understand the real costs and scheduling implications associated with sustainable building.

Airport Passenger Terminal Planning and Design Landrum & Brown, 2010. TRB's Airport Cooperative Research Program (ACRP) Report 25, *Airport Passenger Terminal Planning and Design*, comprises a guidebook, spreadsheet models and a user's guide in two volumes and a CD-ROM intended to provide guidance in planning and developing airport passenger terminals and to assist users in analyzing common issues related to airport terminal planning and design. Volume 1 of ACRP Report 25 explores the passenger terminal planning process and provides in a single reference document the important criteria and requirements needed to help address emerging trends and develop potential solutions for airport passenger terminals. Volume 2 addresses the airside terminal building and landside components of the terminal complex. Volume 2 of ACRP Report 25 consists of a CD-ROM containing 11 spreadsheet models which include practical learning exercises and several airport specific sample data sets to assist users in determining appropriate model inputs for their situations and a user's guide to assist the user in the correct use of each model. The models on the CD-ROM include such aspects of terminal planning as design hour determination, gate demand, check-in and passenger and baggage screening which require complex analyses to support planning decisions. The CD-ROM is also available for download from TRB's website as an ISO image.
