Smart Broadband Manual:

The Smart Internet Mark Chignell, James Cordy, Joanna Ng, Yelena Yesha, 2010-10-31 I love the idea of a Smart Internet that lets users improve many parts of their lives pulling together data and services from around the internet. This won't happen with large unwieldy programming requirements; it will happen because we're moving towards integrated simple tasks that users can do on an every day basis. With services available on the cloud with analytics available with data that has meaning to the user and not just to some protocol parser with all of these users at all levels will be able to do a better job. The users may be small and large enterprises, local governments, individuals etc. All of this means that as the world is becoming more intelligent, instrumented and more interconnected we'll be headed towards smarter health care, smarter cities and smarter lives. Gennaro A. Cuomo, IBM Software Group Vice President and IBM Fellow WebSphere Chief Technology Officer. Congratulations to the team on the publication of this first volume of the IBM CAS Research book series. This is a significant milestone for IBM CAS Research. This series not only captures the innovations resulting from the collaboration across IBM technical leaders, IBM CAS faculty members as well as our network of distinguished academic partners, it also lays the foundation for ongoing commercialization of future research initiatives. **Street Smart Internet Marketing** Justin
