Entrepreneurship and Small Firms David

Deakins, Mark S. Freel, 2012 The sixth edition of *Entrepreneurship and Small Firms* has been fully revised and updated with contributions from leading academics in the field Retaining the popular style of the previous editions and offering a clear and accessible introduction to the topic this book provides a thorough coverage of entrepreneurial and small firm theory concepts evidence policy and practice Integrating academic theory with the day to day realities that entrepreneurs may encounter it furnishes the student with a comprehensive analysis of entrepreneurship This well established text is justly popular for its clear and accessible approach presenting the key topics of an entrepreneurship module in an engaging yet rigorous style The book covers wide ranging topics from the economic influences on entrepreneurship and sources of finance to issues of diversity family business and social entrepreneurship New to this edition is a chapter on Corporate Entrepreneurship offering students a unique insight into entrepreneurship activities in larger businesses and organizations A reorganized chapter structure for the sixth edition allows students to navigate the four parts of the text from introductory concepts the domains of entrepreneurship through to strategy and to implementation New part cases help to highlight the core themes and apply them to real business scenarios The new edition retains a wealth of examples and cases throughout the chapters which illustrate entrepreneurship in action

Human Resource Management Jean M. Phillips, 2023-11-04 Formerly published by Chicago Business Press now published by Sage Human Resource Management An Applied Approach prepares future HRM professionals to effectively utilize strategies and tools to advance their careers and support the growth and development of those they manage Author Jean Phillips adopts an engage by example method encouraging students to take action and create a lasting impact in the field of HRM that goes beyond theoretical learning The Third Edition features new end of chapter exercises company examples throughout the book and a new section called Using This Knowledge at the end of each chapter providing additional support for knowledge application Through case studies videos and exercises students will develop their personal skills and gain practical experience in applying various HR concepts enabling them to become better managers and more effective leaders

Introduction to Management John R. Schermerhorn, 2011 Completely updated and revised this eleventh edition arms managers with the business tools they ll need to succeed The text presents managerial concepts and theory related to the fundamentals of planning leading organising and controlling with a strong emphasis on application It offers new information on the changing nature of communication through technology Focus is also placed on ethics to reflect the importance of this topic especially with the current economic situation This includes all new ethics boxes throughout the chapters An updated discussion on the numerous legal law changes over the last few years is included as well Managers will be able to think critically and make sound decisions using this text because the concepts are backed by many applications exercises and cases

Sustainable Development and Planning XII J.J. Casares, 2022-08-09 Planners environmentalists architects engineers policymakers and economists have to work together to ensure that planning and development can meet our present needs without compromising the ability of future generations This collaboration was

the aim of the 12th International Conference on Sustainable Development and Planning from which the papers in this volume originate Problems related to development and planning which affect rural and urban areas are present in all regions of the world Accelerated urbanisation has resulted in the deterioration of the environment and loss of quality of life Urban development can also aggravate problems faced by rural areas such as forests mountain regions and coastal areas amongst many others Taking into consideration the interaction between different regions and developing new methodologies for monitoring planning and implementation of novel strategies can offer solutions mitigating environmental pollution and non sustainable use of available resources Energy saving and eco friendly building approaches have become an important part of modern development which places special emphasis on resource optimisation Planning has a key role to play in ensuring that these solutions as well as new materials and processes are incorporated in the most efficient manner The included papers feature new academic findings and their applications in planning and development strategies assessment tools and decision making processes
