QUESTION

My 10-year-old son has been diagnosed with a urinary tract infection (UTI). He has been taking antibiotics for 5 days, but the infection has not cleared. What should I do?

ANSWER

It is important to follow up with your doctor to ensure the infection is cleared. If the infection persists, your doctor may recommend a longer course of antibiotics or a different medication. It is also important to ensure your son is drinking plenty of water and voiding frequently.

Figure 1. A schematic diagram of the experimental design. The subjects were divided into two groups: the control group and the experimental group. The control group received a standard treatment, while the experimental group received a modified treatment. The results were compared between the two groups.
