Videojournalism addresses all of these challenges and more, never losing sight of the main point: telling a great story. This book, based on extensive interviews with professionals in the field, is for anyone learning how to master the art and craft of telling real short form stories with words, sound and pictures for the Web or television. The opening chapters cover the foundations of multimedia storytelling and the book progresses to the techniques required to shoot professional video and record high quality sound and market the resulting product. Videojournalism also has its own website; go to just one URL and find all the stories.
