Advances in Next Generation Services and Service Architectures Anand R. Prasad, John F. Buford, Vijay K. Gurbani, 2011 The book is intended to provide readers with a comprehensive reference for the most current developments in the field It offers broad coverage of important topics with eighteen chapters covering both technology and applications written by international experts

Changing Media, Homes and Households Deborah Chambers, 2016-04-14 Media technologies have played a central role in shaping ideas about home life over the last two centuries Changing Media Homes and Households explores the complex relationship between home householders families and media technologies by charting the evolution of the media rich home from the early twentieth century to the present Moving beyond a narrow focus on media texts production and audiences Deborah Chambers investigates the physical presence of media objects in the home and their symbolic importance for home life The book identifies the role of home based media in altering relationships between home leisure work and the outside world in the context of entertainment communication and work It assesses whether domestic media are transforming or reinforcing traditional identities and relations of gender generation class and migrancy

Mediatization theory is employed to assess the domestication of media and media saturation of home life in the context of wider global changes. The author also develops the concept of media imaginaries to explain the role of public discourses in shaping changing meanings, values and uses of domestic media. Framed within these approaches, four chapters also provide in-depth case studies of the processes involved in media's home adoption: early television, design family, centred video, gaming, the domestication of tablet computers and the shift from smart homes to today's connected homes. This is an ideal text for students and researchers interested in media and cultural studies, communication and sociology. [FCC Record](#) United States. Outlook, 2008-12-01 **Eyetracking Web Usability** Jakob Nielsen, Kara Pernice, 2010-04-26 *Eyetracking Web Usability* is based on one of the largest studies of eyetracking usability in existence. Best-selling author Jakob Nielsen and coauthor Kara Pernice used rigorous usability methodology and eyetracking technology to analyze 1.5 million instances where users look at Web sites to understand how the human eyes interact with design. Their findings will help designers, software developers, writers, editors, product managers and advertisers understand what people see or don't see when they look and why. With their comprehensive three-year study, the authors confirmed many known Web design conventions and the book provides additional insights on those standards. They also discovered important new user behaviors that are revealed here for the first time. Using compelling eye gaze plots and heat maps, Nielsen and Pernice guide the reader through

hundreds of examples of eye movements demonstrating why some designs work and others don't. They also provide valuable advice for page layout, navigation menus, site elements, image selection, and advertising. This book is essential reading for anyone who is serious about doing business on the Web. **PC Mag**, 1997-02-18 PCMag.com is a leading authority on technology, delivering Labs-based independent reviews of the latest products and services. Web 1.0 Dotcom Era Defined Mr. David Murray-Hundley, 2023-09-25 David Murray-Hundley, known as The Grumpy Entrepreneur, provides a meticulously detailed account of the Dotcom Era, portraying a pivotal period marked by ingenuity, ambition, and the unbridled growth of the Internet. This book serves as an invaluable historical repository, replete with nuanced insights from someone who not only witnessed but also actively participated in the transformative Dotcom boom of the late 90s. Embark on a scholarly exploration into the inception and flourishing of groundbreaking companies such as Commerce One, led by Mark Hoffman, and Oracle, under the steadfast leadership of Larry Ellison. This book sheds light on both monumental and obscure entities like BVR LLC and Intelysis, recounting their endeavors to shape the Internet's burgeoning landscape. The book meticulously chronicles varied chapters such as Reality Distortion, The Most Outlandish Predictions, and Domain Drama. Tales of Squatters, Thieves, and Million Dollar Names. These chapters delve deep into the peculiar and bold phenomena characteristic of the era. They reflect the ambitious spirit and eclectic environment, from lavish launch parties to the advent of iconic plushie mascots emblematic of the tech boom's softer, more playful side. Beyond the well-known sagas of Napster and Sean Parker, this book brings forth the untold stories of the overlooked heroes and the lesser-known innovators of the time. It uncovers the origins of companies like RealPlayer and highlights the emergence of startup culture, complete with its signature ping pong tables and ever-present array of free snacks, revealing the evolution of these now-commonplace trends. Through Murray-Hundley's insightful reflections, the book delves into the Dotcom Era's profound implications on contemporary tech giants and the progressive transition from Web 1.0 to Web 2.0. It offers readers an in-depth understanding of a time when the world was just beginning to realize the Internet's infinite potentials. This comprehensive narrative is a convergence of humor, historical analysis, and enlightening revelations. It stands as a crucial read for historians, tech enthusiasts, and business scholars eager to comprehend the multifaceted Dotcom Era through the discerning perspective of a seasoned industry veteran. *Communication Technology Update and Fundamentals*, August E.
