trata de temas que se permean y que están directamente relacionados. Para tanto esta dividida en tres partes. En la primera parte se presenta la vida y parte de la obra de una de las principales representantes de feminismo ecológico crítico Val Plumwood considerada una de las cincuenta personalidades más importantes sobre el medio ambiente¹. Se indaga a los principales estudios e investigaciones de la historia del origen y de la lógica de la dominación en nuestra cultura juntamente con las principales críticas a la ciencia. Una vez entendido como nuestra civilización formuló y asentó estos sistemas de dominación verificase cómo estas formas de opresión se relacionan con las diversas ramas de la cultura favoreciendo injusticias además de provocando y agravando nuestra actual crisis ambiental y social. En la segunda parte con base en las principales críticas al antropocentrismo y a la forma como la razón y todas sus derivaciones, el racionalismo, el mercantilismo, la ciencia, etc. fueron controlados y manipulados por el poder se presentan las principales eco teorías que surgieron como alternativas al paradigma dominante juntamente con las consideraciones críticas más importantes que han recibido de forma a diagnosticar si hubo o no discusiones, investigaciones, teorías y movimientos involucrados con la problemática ambiental. Con base en estos datos se busca entender por qué la crisis ecológica y las desigualdades sociales no paran de agravarse. En esta parte se busca encontrar y viabilizar las estrategias teórico filosóficas alternativas para lograr la aplicación de la moral humana como un guía para la ética ambiental lo que implica en una metodología contra hegemónica y un programa que tiene por objetivo reconceptualizar el ser humano y la naturaleza con el fin de romper con el dualismo humano naturaleza. En la tercera parte como respuestas a las cuestiones e indagaciones de las secciones anteriores se responde a la pregunta de si es capaz la sociedad civil de organizarse para crear alternativas y modos de vida más sostenibles y armónicos. Para tanto se ha indagado la praxis de algunos de los principales movimientos académicos culturales y sociales de ámbito global que están trabajando desarrollando y aplicando los valores discutidos en las secciones anteriores para promover el cambio de conciencia y de paradigma. Estos movimientos exitosos están esparcidos en todos los continentes trabajando inspirando e influenciando personas, instituciones y gobiernos para la construcción de una realidad más justa, armónica y sostenible.
