

Answer the following questions in your own words using the textbook as your source. Answer with complete sentences.

1. Use the following terms in sentences that explain the relationship between the terms:
a. genes
b. alleles

Explain each concept that must be understood to explain the concept of different genetic structures that lead to an inherited characteristic trait.

2. Use the following terms in sentences that explain the relationship between the terms:
a. fertilization
b. trait
c. inheritance

Explain which genetic structures are those that are inherited from the parents and the offspring. Explain how the genetic structures are inherited from the parents and the offspring. Explain how the genetic structures are inherited from the parents and the offspring. Explain how the genetic structures are inherited from the parents and the offspring.

3. What are the three main types of geography? Why are they important?

The three main types of geography are physical, human, and environmental. They are important because they help us understand the world around us and how it changes over time.

4. What are the different types of geography? Why are they important?

There are three main types of geography: physical, human, and environmental. They are important because they help us understand the world around us and how it changes over time. Physical geography is the study of the physical features of the Earth, such as mountains, rivers, and oceans. Human geography is the study of the human population and how it interacts with the environment. Environmental geography is the study of the environment and how it affects the human population.

5. What is the difference between a physical and a human geography? Why are they important?

Physical geography is the study of the physical features of the Earth, such as mountains, rivers, and oceans. Human geography is the study of the human population and how it interacts with the environment. They are important because they help us understand the world around us and how it changes over time.

6. What are the different types of geography? Why are they important?
