Challenging Inequality in South Africa Michelle Williams, Vishwas Satgar, 2021-05-13 In

Challenging Inequality in South Africa Transitional Compasses leading scholars of South Africa explore creative possibilities to challenge structures of economic social and political power that produce inequality Through concrete empirical examples of movements workers struggles initiatives and politics in challenging inequality the authors illustrate transitional compasses that go beyond protest politics to a generative politics a politics of building the alternatives in the interstitial spaces of capitalism The conceptual framing is oriented around the way in which power is produced and reproduced through intricate relationships between hegemonic projects and everyday life While power underpins all social relations it is often taken for granted as it is frequently hidden behind other social relations Resistance to power emerges through engendering counter hegemonic projects that are intertwined with alternative everyday practices The authors highlight sources of alternative forms of power found in resistance to dominant forms of power through concrete experiences to create transformative alternatives To concretize the conceptual framing the authors look at the emancipatory possibilities of a universal basic income the use of law in tackling inequality in health and education creative initiatives to establish a people centred food system through food sovereignty new forms of organizing led by precarious workers democratic possibilities in local state delivery and attempts at reconceptualizing the good life by looking at issues of happiness and ecosocialism The chapters in this book were originally published in the journal Globalizations Rethinking Revolution Leo Panitch,Greg Albo,2016-12 One hundred years ago October 1917 galvanized leftists and oppressed peoples around the globe and became the lodestar for 20th century politics Today the left needs to reckon with this legacy and transcend it Social change as it was understood in the 20th century appears now to be as impossible as revolution leaving the left to rethink the relationship between capitalist crises as well as the conceptual tension between revolution and reform Populated by an array of passionate thinkers and thoughtful activists Rethinking Revolution reappraises the historical effects of the Russian revolution positive and negative on political intellectual and cultural life and looks at consequent revolutions after 1917 Change needs to be understood in relation to the distinct trajectories of radical politics in different regions But the main purpose of this Socialist Register edition one century after Red October is to look forward to what might happen next Acclaimed authors interrogate and explore compelling issues including Greg Albo New socialist strategies or detours Jodi Dean Are the multitudes communing Revolutionary agency and political forms today Adolph Reed Are racial minorities revolutionary agents Zillah Eisenstein Revolutionary feminisms today Nina Power Accelerated technology decelerated revolution David Schwartzman Beyond global warming Is solar communism possible Andrea Malm Revolution and counter revolution in an era of climate change **The Rhodesian War** Paul L. Moorcraft,Peter McLaughlin,2016-01-20 A political and military analysis of this conflict in southern Africa with maps photos and a new introduction assessing its long aftermath A half century after the Universal Declaration of Independence this superb book depicts the military history of Southern Rhodesia from the first resistance to colonial rule through the period of UDI by the Smith government to the Lancaster House agreement that

transferred power There are vivid accounts of the operations against the black nationalist guerillas by the security forces and the intensity of the fighting and courage of the participants will surprise and enthrall readers Atrocities were undoubtedly committed by both sides as the protagonists played for very high stakes But this is more than just a book on military operations The authors are able to provide expert analysis of the historical situation and examine events well into the twenty first century including Mugabe s operations against rival tribes and white farmers With a new introduction this is essential reading for those wishing to learn more about a counterinsurgency campaign and why despite the ingenuity of the Rhodesian military fighting against overwhelming odds and restricted by sanctions the outcome culminating in the Lancaster House Agreement was inevitable

Industrial Policy and the Transformation of the Colonial Economy in Africa Horman Chitonge, 2021-02-15 Industrial Policy and the Transformation of the Colonial Economy in Africa offers an in depth analysis of the role industrial policy can play in the transformation of African economies Using examples from Zambia s industrial development experience this book illustrates that core features of the colonial economy have not just survived six decades of independence in most African countries but they have continued to shape the nature scope and pace of economic activities on the continent The book argues that since the colonial economy in Africa was not intended to serve the interests of Africans it is imperative that the structures and the underlying rationale of the colonial economy are radically reoriented if economic activities in Africa are to benefit the majority of Africans Drawing from the Zambian experience the book shows that the transformation of the colonial economy in Africa is urgently needed Whilst this has proved to be difficult over the past six decades it can be done The book outlines a specific type of industrial policy Frontier Industrial Policy as a key instrument for transforming the structure of African economies At a time when economic growth across Africa is under considerable pressure due to COVID 19 the insights in this book will be of interest to researchers across Economics Development Postcolonial Studies and African Studies

English-Medium Instruction from an English as a Lingua Franca Perspective Kumiko Murata, 2018-08-06 English is increasingly used as a lingua franca ELF in communicative situations the world over with the acceleration of globalisation This is in line with the increased introduction of English medium instruction EMI to higher education institutions in many parts of the world to further promote both students and faculty s mobility to make them competitive and employable in the globalised world and to make their institutions more attractive and reputable EMI and ELF however are rarely explicitly investigated together despite the fact that the spread of EMI cannot be separated from that of ELF This volume tackles the issue head on by focusing on EMI in higher education from an ELF perspective The volume includes contributions by Asian European Middle Eastern South American and Anglo American scholars It discusses language policies attitudes and identities analyses of classroom EMI practices case studies and finally pedagogical implications from an ELF perspective incorporating also theoretical and empirical issues in conducting EMI courses programmes The volume will be of great interest and use not only to those who are conducting research on ELF EMI CLIL

language policy and related fields but also to classroom teachers and policy makers who are conducting and or planning to start EMI courses programmes in their institutions or countries all over the world

Crossing the Human Threshold Matt Pope, John McNabb, Clive Gamble, 2017-11-22 When was the human threshold crossed What is the evidence for evolving humans and their emerging humanity This volume explores in a global overview the archaeology of the Middle Pleistocene 800 000 to 130 000 years ago when evidence for innovative cultural behaviour appeared The evidence shows that the threshold was crossed slowly by a variety of human ancestors and was not confined to one part of the Old World Crossing the Human Threshold examines the changing evidence during this period for the use of place landscape and technology It focuses on the emergence of persistent places and associated developments in tool use hunting strategies and the control of fire represented across the Old World by deeply stratified cave sites These include the most important sites for the archaeology of human origins in the Levant South Africa Asia and Europe presented here as evidence for innovation in landscape thinking during the Middle Pleistocene The volume also examines persistence at open locales through a cutting edge review of the archaeology of Northern France and England Crossing the Human Threshold is for the worldwide community of students and researchers studying early hominins and human evolution It presents new archaeological data It frames the evidence within current debates to understand the differences and similarities between ourselves and our ancient ancestors
