Govender,2021-02-24 This volume explores the pressing issues of entrepreneurship education and development in Southern Africa It discusses the various roles of higher education institutions in enhancing entrepreneurship in localised communities and provides a systematic solution for improving the Southern African economy by realising the importance of empowering the youth with entrepreneurial skills In addition successful development requires effective policies and contemporary approaches to both community engagement and entrepreneurship management The book uses different Southern African case studies to discuss the various issues and innovations in entrepreneurship in the country

Deanship in the Global South Oliver J.J. Seale,2021-02-08 The university today is a postmodern neo liberal competitive boundary less knowledge conglomerate a far cry from its historical traditional classical and collegial roots There is a body of literature on deanship that points to its evolving nature in the contemporary academe characterised by complexity and change Balancing academic demands simultaneously with the requirements for effective performance leadership and management lies at the heart of this very challenging bridging role nowadays Deans are generally former academics emerging from a traditional collegial space and often catapulted into the relatively unknown domain of executive management with its related problems Deans nowadays are required to be more than collegial intellectual leaders They are also meant to be fiscal and human resource experts fundraisers politicians and diplomats Deanship in the Global South Bridging Troubled Waters is about the deans lived reality as they try to balance the demands of both the academe from which they emerge and the administration to whom they now need to account Their lack of preparation and inadequate support points to the need for a more strategic integrated

approach to leadership development within their critical bridging roles between the academe and administration

Negotiating Quality Concerns in Higher Education amidst Disruptions Felix Maringe, Otilia Chiramba, 2025-06-02
Quality is at the heart of organisational development. It is the one single reason organisations make progress or fail dismally when it is absent. Disruptions can both be a catalyst for innovation and progress on one hand but when they are not well handled they can cause organisations to spiral into catastrophe and oblivion. This book is about how best to safeguard quality both during and beyond disruptions. Based largely on research in South Africa, the collection of essays will resonate with multiple higher education contexts and audiences. Collectively, the essays provide compelling reading for practitioners, academics, researchers and policy makers in higher education. The book's central message is that while disruptions can expose our organisational weaknesses, they create several opportunities to drive change and transformation. The essays here capture the transition from crisis to high performance and ways in which universities can navigate such journeys.

Sustaining Higher Education Through Resource Allocation, Learning Design Models, and Academic Development Makua, Manyane, Akinlolu, Mariam, 2023-07-24
Conversations, debates and policies toward higher education remain in an uncritical mode of normality on issues such as inclusion, exclusion and equity. In addition, the onset of the COVID-19 pandemic has starkly highlighted the fragility of the higher education system and has raised salient questions related to inclusivity and quality in all aspects. *Sustaining Higher Education Through Resource Allocation, Learning Design Models, and Academic Development* fills a gap in the existing literature by introducing current practices and procedures in the face of the new normal as they affect the higher education sector. The book also addresses the various issues of current interest in the higher education sector relative to teaching and learning, student support, staff development, curriculum development, educational technologies, learning design models and resource allocation. Covering key topics such as student engagement, assessment practices and academic development, this premier reference source is ideal for administrators, researchers, scholars, academicians, practitioners, instructors and students.

Southern Resistance in Critical Perspective Marcel Paret, Carin Runciman, Luke Sinwell, 2017-03-27
From the Arab Uprising to anti-austerity protests in Europe and the US Occupy Movement to uprisings in Brazil and Turkey, resistance from below is flourishing. Whereas analysts have tended to look North in their analysis of the recent global protest wave, this volume develops a Southern perspective through a deep engagement with the case of South Africa, which has experienced widespread popular resistance for more than a decade. Combining critical theoretical perspectives with extensive qualitative fieldwork and rich case studies, *Southern Resistance in Critical Perspective* situates South Africa's contentious democracy in relation to both the economic insecurity of contemporary global capitalism and the constantly shifting political terrain of post-apartheid nationalism. The analysis integrates worker, community and political party organizing into a broader narrative of resistance, bridging historical divisions between social movement studies, labor studies and political sociology.

Advanced Functional Materials and

Methods for Photodegradation of Toxic Pollutants Ajay Kumar Mishra, Pardeep Singh, Pankaj Raizada, S.

Vadivel, Rangabhashiyam Selvasembian, 2023-09-20 *Advanced Functional Materials and Methods for Photodegradation of Toxic Pollutants* addresses the potential role of visible active photocatalytic methods for the removal of various emerging and persistent organic pollutants (POPs). Describing the classification, sources, and potential risks of emerging organics in water bodies and the environment, the book covers the different synthesis methods of visible active structured photocatalysts and structure-related properties to their applications in photocatalytic processes for the removal of antibiotics, pharma, and heavy metal pollutants. This book provides an invaluable reference to academics, researchers, and technicians in chemical engineering, chemistry, and environmental science. In addition, the mechanistic insights associated with the interaction of advanced functional materials and water pollutants, along with the possible reaction pathway occurring during the visible light-induced photocatalytic processes together with toxicity, are discussed in detail along with the reutilization of catalysts supporting the inherent reaction conditions performed with natural conditions. Covers the recent progress in nano photocatalytic materials. Explores the mechanism of photocatalytic degradation of pollutants. Includes the controlled synthesis of nanostructured photocatalysts and their modifications for targeted pollutants.

Handbook of Research on Connecting Research Methods for Information Science Research Ngulube, Patrick, 2019-12-13 In today's globalized world, viable and reliable research is fundamental for the development of information. Innovative methods of research have begun to shed light on notable issues and concerns that affect the advancement of knowledge within information science. Building on previous literature and exploring these new research techniques are necessary to understand the future of information and knowledge. The *Handbook of Research on Connecting Research Methods for Information Science Research* is a collection of innovative research on the methods and application of study methods within library and information science. While highlighting topics including data management, philosophical foundations, and quantitative methodology, this book is ideally designed for librarians, information science professionals, policymakers, advanced level students, researchers, and academicians seeking current research on transformative methods of research within information science.

Online Teaching and Learning in Higher Education Mariam Akinlolu, Manyane Makua, Nomalungelo Ngubane, 2024-06-03 This edited volume explores current practices in African higher education during and post the global pandemic. It fills a gap in the existing literature by focusing on student engagement and online learning in South Africa and examines how pandemic restrictions amplified pre-existing inequalities within the higher education sector. The book is divided into 3 sections. The first section discusses various methods of instruction and the use of online tools for facilitating learning, succeeded by a section focusing on the resource implications of moving to online learning platforms from a social justice perspective, and finally, the last section considers issues and concerns about online assessments and quality assurance. Drawing on lessons from the experiences of South African educators and students during the pandemic, this book provides a knowledge base essential for the effective

management of online teaching and learning in Africa It is intended for academic stakeholders to develop and engender an improved higher education climate

Positive Organizational Interventions: Contemporary Theories, Approaches and Applications Llewellyn Ellardus Van Zyl, Sebastiaan Rothmann, 2021-01-05

Transforming Universities in South Africa, 2020-08-31 The idea of transformation in higher education underpins all policy documents academic literature and on going debates in South Africa Transforming Universities in South Africa Pathways to Higher Education Reform responds to the pressing need to comprehensively review the post apartheid experience and assess where South Africa s higher education stands across the continent and globally particularly within the country s efforts to overcome decades of socio economic imbalances It addresses the question of whether South Africa s transformation strategy from apartheid to democracy was simply a symbolic new flag raising and new anthem singing exercise reflecting a transition akin to those limited decolonization projects elsewhere in the world or whether something more fundamental was possible and was achieved with political and policy implications for other countries in Africa and globally This volume s ultimate purpose is to provide a basis for imagining new futures in which South Africa higher education in the context of Africa and the global world takes centre stage

Accessibility of Digital Higher Education in the Global South Mashau, Pfano, Farisani, Tshililo Ruddy, 2023-12-01 Accessibility of Digital Higher Education in the Global South authored by Pfano Mashau and Tshililo Farisani from the University of KwaZulu Natal South Africa is an academic book that examines the impact of the COVID 19 pandemic on higher education in Africa The book aims to provide a comprehensive analysis of the sustainability of the new normal approaches in African universities and institutions of learning as well as government responses to teaching and learning processes during and post pandemic The sudden outbreak of COVID 19 triggered demands for informal comfortable and self designed spaces that go beyond conventional formal classrooms where students can take initiative and demonstrate independence in learning However access to digitalized teaching methods remains problematic due to the digital divide among learners and the rural urban dichotomy The book invites researchers academics and scholars in the Global South to contribute to the narrative to document successes in and improve the higher education sector post pandemic The book covers a range of themes including the sustainability of digitalized teaching approaches integrative and interactive teaching and learning theories and practices government responses to teaching and learning processes comparative analysis of conventional and digitalized teaching and learning approaches and equality diversity and participation in digitalized teaching and learning platforms among others
