Optimality-theoretic Syntax, Semantics, and Pragmatics Géraldine

Legendre, Michael T. Putnam, Henriëtte de Swart, Erin Zaroukian, 2016 This book investigates the morphosyntactic semantic and pragmatic properties of language and the interactions between them from the perspective of Optimality Theory It integrates optimization processes into the formal and functional study of grammar interpreting optimization as the result of conflicting violable ranked constraints Unlike previous work on the topic this book also takes into account the question of directionality of grammar A model of grammar in which optimization processes interact bidirectionally allows both language generation the process of selecting the optimal form of a given meaning and language interpretation the process of optimal interpretation of a given form to be taken into account Chapters in this volume explore the consequences of both symmetric unidirectional and asymmetric bidirectional versions of Optimality Theory investigating the syntax semantics interface first language acquisition and sequential bilingual grammars The volume presents cutting edge research in Optimality Theoretic syntax and semantics as well as demonstrating how optimization processes as modelled in this formalism serve as a viable approach for linguists and scholars in related fields

Corporate Social Responsibility and Discrimination Christina

Keinert-Kisin, 2016-04-27 This book presents and deconstructs the existing explanations for the differential career development of qualified men and women It reframes the problem of discrimination in the workplace as a matter of organizational ethics social responsibility and compliance with existing equal opportunity laws Sensitive points are identified where social biases decision makers individual economic interests and shortcomings of organizational incentive policies may lead to discrimination against qualified women The ideas put forward are empirically tested in an original laboratory experiment that examines personnel selection in the male dominated field of science and technology It contrasts the selection of applicants with gendered and gender blind applications available to subjects under controlled conditions 30% of

participants were high level decision makers which is unprecedented in this field of research The results highly relevant for organizational practice are explained and discussed in detail A Grammar of Vurës, Vanuatu Catriona Malau,2016-10-24 This book is a comprehensive grammatical description of the Vur s language spoken on the island of Vanua Lava in the Banks group of islands northern Vanuatu Vur s is a previously undescribed language with very few minor published works referring to the language **High-Performance Scientific Computing** Edoardo Di Napoli,Marc-André Hermanns,Hristo Iliev,Andreas Lintermann,Alexander Peyser,2017-03-01 This book constitutes the thoroughly refereed post conference proceedings of the First JARA High Performance Computing Symposium JARA HPC 2016 held in Aachen Germany in October 2016 The 21 full papers presented were carefully reviewed and selected from 26 submissions They cover many diverse topics such as coupling methods and strategies in Computational Fluid Dynamics CFD performance portability and applications in HPC as well as provenance tracking for large scale simulations **Advances in Operations Research Education** Jeroen Beliën,Ana Paula Teixeira,Hans W.Ittmann,João Luís de Miranda,Marco Laumanns,Margarida Vaz Pato,2018-02-16 This edited monograph contains a comprehensive overview of educational developments in the fields of operations research OR and management science MS The book outlines key factors in OR MS curricular programs and analyses different approaches regarding student enrollment and failure rates The approach is genuinely international whereas the focus lies on the European level The target audience primarily comprises public policy planners in education deans and school directors as well as program coordinators **Ad-hoc, Mobile, and Wireless Networks** Nathalie Mitton,Valeria Loscri,Alexandre Mouradian,2016-06-17 This book constitutes the proceedings of the 15th International Conference on Ad Hoc Networks and Wireless ADHOC NOW 2016 held in Lille France in July 2016 The 23 full papers presented together with one short paper in this volume were carefully reviewed and selected from 64 submissions The contributions are organized in topical sections named resource allocation theory and communications PHY MAC routing in sensors IoT DTN opportunistic networks sensors IoT security VANET and ITS and robots and MANETs Operations Management for Healthcare Jan Vissers,Sylvia Elkhuisen,Nathan Proudlove,2022-11-25 This fully updated edition of the bestselling textbook on Health Service Operations Management provides an invaluable reference for students and researchers in the fields of healthcare management operations management and patient flow logistics Featuring theoretical frameworks and a comprehensive set of practical case studies this book also covers subjects such as hospital planning and supply chain management in healthcare quality assurance and performance management Healthcare managers work together with healthcare professionals in a multitude of challenging scenarios Trade offs have to be made between waiting times for customers and efficient use of scarce resources between quality of care and quality of services between the perspective of a single pathway and the total system and between the perspective of a single provider and that of a network of providers working together in the chain of primary care hospitals nursing homes and home care This book guides healthcare students and professionals through a set of practical

Higher Education, Community Engagement and Entrepreneurship in Southern Africa I. G. Govender, 2021-02-24. This volume explores the pressing issues of entrepreneurship education and development in Southern Africa. It discusses the various roles of higher education institutions in enhancing entrepreneurship in localised communities and provides a systematic solution for improving the Southern African economy by realising the importance of empowering the youth with entrepreneurial skills. In addition, successful development requires effective policies and contemporary approaches to both community engagement and entrepreneurship management. The book uses different Southern African case studies to discuss the various issues and innovations in entrepreneurship in the country. Unleashing Growth and

Strengthening Resilience in the Caribbean Mr. Krishna Srinivasan, Ms. Inci Otker, Ms. Uma Ramakrishnan, Mr. Trevor Serge Coleridge Alleyne, 2017-11-13. This book provides a diagnosis of the central economic and financial challenges facing Caribbean policymakers and offers broad policy recommendations for promoting a sustained and inclusive increase in economic well-being. The analysis highlights the need for Caribbean economies to make a concerted effort to break the feedback loops between weak macroeconomic fundamentals notably pertaining to fiscal positions and financial sector strains and structural impediments such as high electricity costs, limited financial deepening, violent crime and brain drain which have depressed private investment and growth. A recurring theme in the book is the need for greater regional coordination in finding solutions to address the Caribbean's shared and intertwined macroeconomic and structural challenges. The analysis suggests that strengthening regional and global market integration of Caribbean economies would provide an impetus to sustained growth in incomes and jobs. Greater regional and global economic integration would also facilitate structural transformation and a shift toward new economic activities resulting in more diversified and less vulnerable economies. A central challenge for the Caribbean is thus to come together as a region, overcome the limitations posed by size and garner the benefits of globalization. Efforts should build on existing regional arrangements, accelerating progress in implementing these agreements would stimulate trade. Policymakers could also promote deeper integration with Latin America and the rest of the world by pursuing new trade agreements, leveraging current agreements more effectively or deepening them to include areas beyond traditional trade issues and developing port and transport infrastructure. **Applied Mathematics in**
