Uva Essays 2013 2014:

Assault on the Small Screen Molly Ann Magestro, 2015-07-22 Over the last few decades television programs have attempted to depict some of the more troubling elements of society with a more conscientious approach. Issues that networks were once reluctant to broadcast such as sexual abuse, sexual assault, and rape have become frequent plot points for many popular shows. Narratives that portray important social issues could potentially affect the ways individual viewers understand such incidents in the real world, so it is important to pay close and critical attention to the stories about rape that are broadcast to mass audiences. In *Assault on the Small Screen: Representations of Sexual Violence on Prime Time Television Dramas*, Molly Ann Magestro examines the ways in which police and legal dramas on network and cable channels portray rape narratives. In this discussion, the author focuses on eight successful shows: *NCIS*, *Criminal Minds*, *CSI*, *The Closer*, *Rizzoli Isles*, *Dexter*, *Law and Order: Special Victims Unit*, and *The Good Wife*. Each chapter offers a close reading and analysis of how one or more of the shows represent rape narratives and rape victims in ways that more or less address feminist understandings of rape and rape culture. The arguments in each chapter explore the specific narrative content of individual series rather than a single critical approach. Each of the eight shows considered within the book is the focus of its own argument, as the representations of rape narratives on television are as complex as issues surrounding rape can be in the real world. In a time when rape narratives are frequently making headlines, taking the time to examine and understand the messages broadcast by a medium as ubiquitous as television serves an important role in developing an understanding of rape culture. A significant step toward this understanding, *Assault on the Small Screen* will be of interest to scholars of film and television, media studies, gender studies, criminology, and sociology.

A Very Seductive Body Politic Nicoletta Marini Maio, 2015-10-21 T00:00:00+02:00 This volume maps the multilayered narratives created in cinema on and around Silvio Berlusconi as a means of exploring the age of Berlusconi. The analysis crosses chronological and generic boundaries stretching back to the comedy *Italian Style*, which foreshadows the symbolic meanings incarnated by Berlusconi before he actually entered the public stage. The book delineates a comprehensive cinematic corpus and focuses on a selection of narrative and documentary films from the proto-Berlusconi *everyman* of *La più bella serata della mia vita* (The Most Wonderful Evening of My Life, 1972) by Ettore Scola to the Berlusconi pretext for political self-reflection of *Arance e martello* (Oranges and Hammer, 2014) by Diego Bianchi. The author argues that the Berlusconi in these films represents not only the historical persona but also a pervasive semiotic category in which the recent history of the country is inscribed and Italian society mirrors itself.

Alternative Universities David J. Staley, 2019-03-26 Imagining the universities of the future How can we re envision the university Too many examples of what passes for educational innovation today MOOCs especially focus on transactions on questions of delivery In Alternative Universities David J Staley argues that modern universities suffer from a poverty of imagination about how to reinvent themselves Anyone seeking innovation in higher education today should concentrate instead he says on the kind of transformational experience universities enact In this exercise in speculative design Staley proposes ten models of innovation in higher education that expand our ideas of the structure and scope of the university suggesting possibilities for what its future might look like What if the university were designed around a curriculum of seven broad cognitive skills or as a series of global gap year experiences What if as a condition of matriculation students had to major in three disparate subjects What if the university placed the pursuit of play well above the acquisition and production of knowledge By asking bold What if questions Staley assumes that the university is always in a state of becoming and that there is not one idea of the university to which all institutions must aspire This book specifically addresses those engaged in university strategy university presidents faculty policy experts legislators foundations and entrepreneurs those involved in what Simon Marginson calls university making Pairing a critique tempered to our current moment with an explanation of how change and disruption might contribute to a new golden age for higher education Alternative Universities is an audacious and essential read

Behind the Times Mary Jean Corbett, 2020-11-15 Virginia Woolf throughout her career as a novelist and critic deliberately framed herself as a modern writer invested in literary tradition but not bound to its conventions engaged with politics but not a propagandist a woman of letters but not a lady novelist As a result Woolf ignored or disparaged most of the women writers of her parents generation leading feminist critics to position her primarily as a forward thinking modernist who rejected a stultifying Victorian past In Behind the Times Mary Jean Corbett finds that Woolf did not dismiss this history as much as she boldly rewrote it Exploring the connections between Woolf's immediate and extended family and the broader contexts of late Victorian literary and political culture Corbett emphasizes the ongoing significance of the previous generation's concerns and controversies to Woolf's considerable achievements Behind the Times rereads and revises Woolf's creative works politics and criticism in relation to women writers including the New Woman novelist Sarah Grand the novelist and playwright Lucy Clifford the novelist and anti suffragist Mary Augusta Ward It explores

Woolf's attitudes to late Victorian women's philanthropy the social purity movement and women's suffrage Closely tracking the ways in which Woolf both followed and departed from these predecessors Corbett complicates Woolf's identity as a modernist her navigation of the literary marketplace her ambivalence about literary professionalism and the mixing of art and politics and the emergence of feminism as a persistent concern of her work

Justice Is an Option Robert Meister, 2021-04-19 More than ten years after the worst crisis since the Great Depression the financial sector is thriving But something is deeply wrong Taxpayers bore the burden of bailing out too big to fail banks but got nothing in return Inequality has soared and a populist backlash against elites has shaken the foundations of our political order Meanwhile financial capitalism seems more entrenched than ever What is the left to do Justice Is an Option uses those problems and the framework of finance that created them to reimagine historical justice Robert Meister returns to the spirit of Marx to diagnose our current age of finance Instead of closing our eyes to the political and economic realities of our era we need to grapple with them head on Meister does just that asking whether the very tools of finance that have created our vastly unequal world could instead be made to serve justice and equality Meister here formulates nothing less than a democratic financial theory for the twenty first century one that is equally conversant in political philosophy Marxism and contemporary politics Justice Is an Option is a radical invigorating first page of a new and sorely needed leftist playbook

Johan van Benthem on Logic

and Information Dynamics Alexandru Baltag, Sonja Smets, 2014-08-27 This book illustrates the program of Logical Informational Dynamics. Rational agents exploit the information available in the world in delicate ways, adopt a wide range of epistemic attitudes and in that process constantly change the world itself. Logical Informational Dynamics is about logical systems putting such activities at center stage, focusing on the events by which we acquire information and change attitudes. Its contributions show many current logics of information and change at work, often in multi-agent settings where social behavior is essential and often stressing Johan van Benthem's pioneering work in establishing this program. However, this is not a Festschrift but a rich tapestry for a field with a wealth of strands of its own. The reader will see the state of the art in such topics as information update, belief change, preference learning over time, and strategic interaction in games. Moreover, no tight boundary has been enforced, and some chapters add more general mathematical or philosophical foundations or links to current trends in computer science. The theme of this book lies at the interface of many disciplines. Logic is the main methodology, but the various chapters cross easily between mathematics, computer science, philosophy, linguistics, cognitive and social sciences, while also ranging from pure theory to empirical work. Accordingly, the authors of this book represent a wide variety of original thinkers from different research communities. And their interconnected themes challenge at the same time how we think of logic, philosophy, and computation. Thus, very much in line with van Benthem's work over many decades, the volume shows how all these disciplines form a natural unity in the perspective of dynamic logicians broadly conceived, exploring their new themes today. And at the same time, in doing so, it offers a broader conception of logic with a certain grandeur, moving its horizons beyond the traditional study of consequence relations.

Gender in the Vampire Narrative

Amanda Hobson, Melissa Anyiwo, 2016-09-26 *Gender in the Vampire Narrative* addresses issues of masculinity and femininity, unpacking cultural norms of gender. This collection demonstrates the way that representations of gender in the vampire narrative traverse a large scope of expectations and tropes. The text offers classroom-ready original essays that outline contemporary debates about sexual objectification and gender norms using the lens of the vampire in order to examine the ways those roles are undone and reinforced through popular culture, through a specific emphasis on cultural fears and anxieties about gender roles. The essays explore the presentations of gendered identities in a wide variety of sources, including novels, films, graphic novels, and more, focusing on wildly popular examples such as *The Vampire Diaries*, *True Blood*, and *Twilight*, and also lesser-known works, for instance *Byzantium* and *The Blood of the Vampire*. The authors work to unravel the ties that bind gender to the body and the sociocultural institutions that shape our views of gendered norms and invite students of all levels to engage in interdisciplinary conversations about both theoretical and embodied constructions of gender. This text makes a fascinating accompanying text for many courses such as first-year studies, literature, film, women's and gender studies, sociology, popular culture, or media studies, cultural studies, American studies, or history. Ultimately, this is a text for all fans of popular culture. Hobson and Anyiwo chase the vampire through history and across literature, film,

television and stage exploring this complexity and offering insightful and accessible analyses that will be enjoyed by students in popular culture gender studies and speculative fiction This collection is not to be missed by those with an interest in feminist cultural studies or the undead Barbara Gurr University of Connecticut Hobson and Anyiwo push the boundaries of the scholarship as it has been written until now Catherine Coker Texas A M University Amanda Hobson is Assistant Dean of Students and Director of the Women s Resource Center at Indiana State University U Melissa Anyiwo is a Professor of Politics History and Coordinator of African American Studies at Curry College in Massachusetts
