Reflections of South African Student Leaders: 1994 to 2017 Ntokozo Bhengu, Denyse Webbstock, 2020-05-13 *Reflections of South African Student Leaders 1994 2017* brings together the reflections of twelve former SRC leaders from across the landscape of South African universities. Reviews of the previous volume 1981 2014 suggested that it contributed significantly to a better understanding of the stringent demands of visionary and transformative leadership required by university leaders in the fastchanging and increasingly complex public higher education sector. This volume is based on comprehensive interviews with former student leaders each of whom provided a personal account in their own words of their experience in the position of student leadership. The interviewees are from different backgrounds and of diverse political persuasions. The book is important for current and future leaders of higher education institutions as it provides insights into the thinking, aspirations, desires, fears, and modus operandi of student leaders. Such insight can contribute to developing and implementing appropriate strategies for achieving meaningful and constructive engagement with current and future student leaders.

Grid-locked African Economic Sovereignty Victor Warikandwa,Artwell Nhemachena,2019-02-06 The emergent so called Fourth Industrial Revolution is regarded by some as a panacea for bringing about development to Africans This book dismisses this flawed reasoning Surfacing how investors are actually looting and plundering Africa how the industrial internet of things the gig economies digital economies and cryptocurrencies breach African political and economic sovereignty the book pioneers what can be called anticipatory economics which anticipate the future of economies It is argued that the future of Africans does not necessarily require degrowth postgrowth postdevelopment postcapitalism or sharing solidarity economies it requires attention to age old questions about African ownership and control of their resources Investors have to invest in ensuring that Africans own and control their resources Further it is pointed out that the historical imperial structural creation of forced labour is increasingly morphing into what we call the structural creation of forced leisure which is no less lethal for Africans Because both the structural creation of forced labour and the structural creation of forced leisure are undergirded by transnational neo imperial plunder theft robbery looting and dispossession of Africans this
