Disadvantage
 The U.S. has a massive trade surplus, especially in government bonds. Therefore, we are effectively in debt. Moreover, it's just a virtual debt, government bonds, not real assets. Therefore, the surplus may be better described as a capital drain (see Government). The large debt really undermines the entire social and political system. The country has a tremendous debt, more than 100 billion dollars. It's actually huge. People don't know how much this debt costs.
